PART I.

Officers Eligible for Posts over Rs. 50 per mensem.

No. R. 6701-10—L. R. 173-14 1, DATED 3RD FEBRUARY 1915.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Order No. R. 6701-10—L. R. 173-14-1, dated 3rd February 1915.

With a view to regulate appointments to posts carrying a pay of over Rs. 50 per mensem in the Revenue Department, Government deem it desirable that a list of all officials eligible for such appointments should be maintained. The names of the officials should be arranged for the time being in the order of merit, regard being had also to the claims of deserving Sub-Registrars in accordance with Government Order No. J. 1046-55—Regis. 2-10-8, dated 29th September 1910.

2. The Revenue Commissioner is requested to kindly call for such lists from the Deputy Commissioners of Districts and the Inspector-General of Registration, compile a consolidated list in the form appended and submit it for the approval of Government every half-year. The first consolidated list should be submitted before the end of February 1915.

Right of Grazing in the Kainadu Village Tank.

No. R. 6824-6—L. R. 8-10-65, DATED 8TH FEBRUARY 1915.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Correspondence ending with letter No. 2448, dated the 25th August 1914, from the Revenue Commissioner in Mysore, in the matter of the dispute between the raiyats of the Kainadu village, Hosdurga Taluk, and the Amrut Mahal Department, regarding the right of grazing in the bed of the village tank.

Order No. R. 6824-6—L. R. 8-10-65, dated 8th February 1915.

The officials of the Amrut Mahal Department assert that Government cattle have been grazing in a portion of the tank bed for a long time past, while the villagers contend that they possess the exclusive right of pasture over the whole of the tank bed included in the limits of their village.

2. In Government Order No. R. 3991-93—L. R. 8-10-59, dated 5th January 1912, the Deputy Commissioner was requested to inspect the locality jointly with the Amrut Mahal Superintendent and report the decision arrived at, but it is stated that for one reason or another it has not been possible to arrange for a joint inspection, and the report of the Sub-Division Officer, Davangere, who held a local inspection and a detailed enquiry has been submitted for orders.

3. It is seen from the papers that Amrut Mahal Department has two kavals in the locality—one of 800 acres contiguous with the tank known as 'Kainadu Horagaval' and the other of 400 acres behind the tank known as 'Valagaval.' No portion of the tank bed is included in either of these kavals, while the whole of it has been treated as part of the village both at the original and the resurvey settlements. This fact raises a strong presumption that the villagers enjoy the same communal privileges over it as is possessed by raiyats in their tank beds all over the State, and in the absence of proof of the asserted right of the Amrut Mahal Department, this presumption must prevail.

4. This is eminently a case where it would be inexpedient to concede the claim of the Amrut Mahal Department, for, while that Department is amply provided with pasture in the vicinity, the village suffers from insufficiency of gomal and the tank bed is so situated that to make it a kaval would lead to undesirable friction.

5. In these circumstances Government directed that the Amrut Mahal Department should abstain from interfering with the grazing of the village cattle in the tank bed.

Read—

Replies received from the Deputy Commissioners of Districts regarding the working of the Village Improvement Committees in the several districts in the State up to the end of November 1914.

Order No. R. 6911-19—L. R. 10-14-93, dated 10th February 1915.

A consolidated statement showing the progress made with regard to village improvement work in the several districts is appended (*vide* Statement A) and circulated to the Deputy Commissioners of Districts for information.

2. The Deputy Commissioners are requested to submit in future, through the Revenue Commissioner, a quarterly statement of progress of work and expenditure in connection with village improvement in the form prescribed herein (*vide* Statement B) so as to reach the Government not later than the end of the month following the quarter to which it relates. The first quarterly statement for the quarter ending March 1915 should be submitted by the end of April 1915.

3. The progress achieved in the movement has to be measured by the increase in the number of Committees which are performing the three essential duties enumerated in columns, 4, 5, and 6 of Statement B and it is hoped that the number of Committees under these columns will gradually increase in all the districts.

READ—

Letter No. 4732, dated 28th October 1914, from the Revenue Commissioner in Mysore, forwarding letter No. 52, dated the 21st idem, from the Superintendent of Revenue Survey in Mysore, requesting sanction to the payment of revised remuneration to the patels and shanbhogs of the villages forming a portion of the late Tumkur Taluk, now forming a part of the Gubbi Taluk, as indicated in the appended statement based on the revenue collections of 1910-11 from which year the Revision Settlement of the tract came into effect, and requesting that the concessions authorised in Government Order No. R. 9382-4—L. R. 12-13-21, dated the 6th June 1914, and No. R. 2770-80—L. R. 216-14-2, dated 13th October 1914, with regard to decennial revision may be extended to cases of revision of potgi in taluks into which revised Survey Settlement is introduced.

Order No. R. 6951-3—L. R. 13-14-8, dated 11th February 1915.

The payment of the revised potgi from 1910-11 is sanctioned.

2. Government are also pleased to direct that where the amount of the potgi of a *firka* in the case of a shanbhog and a village in the case of a patel, is increased or decreased in consequence of the revision settlement, the revised potgi should be paid from the date of introduction of the revised settlement in the case of an increase and from the date of the Government Order sanctioning the revised potgi in the case of a decrease.

Letter No. 1967, dated 20th August 1912, from the Revenue Commissioner in Mysore, forwarding for orders copy of a letter from the Deputy Commissioner, Shimoga District, No. 26, dated 6th June 1912, soliciting instructions on certain points in connection with the permission granted by a previous Deputy Commissioner to one Ramiah to construct a *chattram* for the use of the public on inam land purchased by him within the limits of Urgadur Inam village in close proximity to the Shimoga Railway Station.

(Printed as accompaniment.)

Order No. R. 7116-26—L. R. 217-12-2, dated 18th February 1915.

Government consider that the Deputy Commissioner has no power to grant permission to appropriate agricultural lands in alienated villages for non-agricultural purposes. But he cannot interfere to prevent such appropriation, if permitted or acquiesced in by the Inamdar. Rule 49 (A) likewise has no application to lands in inam villages, and the proposal that it should be amended so as to apply to them, does not commend itself to Government.

2. If the Deputy Commissioner and the Municipal Council of Shimoga consider it necessary to restrict the construction of buildings in the area, they should take steps to acquire the rights of the inamdar concerned and to include the lands within the limits of the Municipality.

3. As regards the chattram built by Ramiah, if it can be made out that it was dedicated for public use, proceedings may be taken under the provisions of the Muzrai Regulation to enforce the trust.

ACCOMPANIMENT.

No. 1967-2, dated Bangalore, 20th August 1912, from K. Doraswami Iyer, Esq., Revenue Commissioner in Mysore, to the Secretary to the Government of His Highness the Maharaja of Mysore, General and Revenue Departments.

I have the honor to forward herewith for orders of Government, copy of letter No. 26, dated 6th July 1912, together with a copy of its enclosure, received from the Deputy Commissioner, Shimoga District, soliciting instructions regarding the removal of certain buildings erected within the limits of Urgadur Agrahar Inam village in close proximity to Shimoga Railway Station.

2. It is a mistake to suppose that the holder of an alienated village cannot permit the appropriation of an agricultural land in his village to non-agricultural purposes.

3. The only question for consideration in this case is whether Government can prohibit the appropriation of alienated agricultural land to building purposes when such land is situated within half a mile radius from any Railway Station. Under the rules in force, such appropriation can be prohibited only in the case of unalienated lands. The Government have reserved this right evidently with the object that they should not be submitted to the payment of heavy compensation, when the land is to be resumed for Railway purposes. I think that Rule 49A should be amended so as to apply to alienated lands also.

4. In the present case, if permission to construct dwelling houses had been asked for, it would not have been given. Ramiah wanted to build a chattram for the use of the public and got the permission. The building should remain for the purpose intended. Further constructions would of course have to be stopped.

5. An early reply is requested.

Enclosure.

Letter No. 26, dated 6th July 1912, from the Deputy Commissioner, Shimoga District, to the Revenue Commissioner in Mysore.

I have the honor to submit, in original, a memo received from the Sub-Division Officer of Shimoga, regarding the building known as Mahishi Ramiah's Chattram.

2. The two buildings referred to are situated on Inam land within the limits of the Urgadur (Agrahar) Inam village and are separated from the Railway Station premises only by the width of the Bangalore-Honnawar road. The Deputy Commissioner licensed the construction of the chattram building on the representation that it would be dedicated solely to the use of the travellers, but the so-called chattram is now entirely in the occupation of Ramiah himself and a couple of more or less permanent residents who occupy with his permission. Ramiah has built, without any license at all, a bungalow for his own occupation in close proximity to the "Chattram."

3. Apart from the flagrant appropriation of the chattram to wholly private purpose contrary to the declared intentions under color of which a license was obtained, the competency of the Deputy Commissioner himself to authorise the appropriation of alienated agricultural land to non-agricultural purposes appears questionable.

Section 63 of the Land Revenue Code refers solely to unalienated land, as is clear from the definition of the term "Occupant" used in it, as well as from the heading of Chapter VI (of the occupation of unalienated land and the rights of occupants) of which it forms a part. The Deputy Commissioner's permission which would legalise the occupant's appropriation of unalienated agricultural land to other purposes, would under Section 238, Land Revenue Code, not avail to legalise such appropriation of alienated land.

4. Under Section 99, clause (*d*), powers similar to those exercised by the Deputy Commissioner under Sections 63 and 64 of Land Revenue Code are among those delegated by Government to Inam dars. It follows that until and unless such delegation is made by a formal commission, the Inamdar does not possess the power of permitting appropriation of agricultural lands within his limits to building purposes. No such commission has been issued to the Inamdars of Urgadur. It is clear that the power of permitting such appropriation is inherent in Government, and not in the Deputy Commissioner or in the Inamdar.

5. In the present case, the Deputy Commissioner has permitted the construction of the so-called chattram on the condition of the Inamdars having no objection. If my view of the Revenue law is correct, then neither the license of the Deputy Commissioner nor the acquiescence of the Inamdar is adequate to legalise the conversion of agricultural land into a building site: and though probably the doctrine of "*factum valet*" would protect the structure from summary demolition, Ramiah will have no right to complain, if Government insist on a strict fulfilment of his professed charitable intentions as a necessary condition of their ratification of the otherwise insufficient license.

6. I would request an early pronouncement in the matter, as the point involved is of great importance in view of the fact that a number of unsightly structures are in the course of springing up on Inam land in close proximity to the Railway Station and on either side of the high road.

Government Order No. R. 596-639—L. R. 512-04-2, dated 14th July 1905, issuing instructions in the matter of relief of officers whose appointment, leave, etc., are notified in Part I of the *Mysore Gazette*.

Order No. R. 7257-304—L. R. 486-14-1, dated 22nd February 1915.

As some misconception seems to exist in the above matter, Government are pleased to direct that subordinate officers should not take action on Gazette Notifications relating to transfers without the specific orders of their immediate Official Superiors. Such orders, if delayed, should be applied for.

2. There should be no delay on the part of the latter, to issue the necessary orders after such consultation with the Head of the Department concerned as may be necessary, whenever the notification does not prescribe the order of relief of the officers under transfer.

Report on the Administration of the Revenue Department.

No. R. 7561-9—L. R. 335-14-3, DATED 26TH FEBRUARY 1915.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

The Report on the Administration of the Revenue Department for the year 1913-14, received with the Revenue Commissioner's letter No. 3868, dated the 30th September 1914.

Order No. R. 7561-9—L. R. 335-14-3, dated 26th February 1915.

Mr. K. S. Doraswami Iyer continued to be the Revenue Commissioner throughout the year under report.

2. *District and Sub-Division Officers' Administration Reports.*—It is satisfactory to note that almost all the reports were submitted with a fair degree of punctuality, and that in the opinion of the Revenue Commissioner some improvement is noticed in the quality of the reports.

3. *Season and Agriculture.*—The average rainfall during the year was short of the average for the previous year by 15·62 inches and of the average for 31 years by 7·94 inches. The decrease occurred in all the districts and agricultural operations were seriously affected in consequence, in almost all parts of the State, specially in areas commanded by tanks in the Kolar, Tumkur and Mysore Districts.

4. There was a prolonged break of nearly two months in the south-west monsoon from the middle of July. This, combined with the defective character of the north-east monsoon, caused much scarcity of fodder and drinking water towards the end of the year. Several State Forests were thrown open to free grazing and large grants of takavi advances were made. Many tank-beds were also made available for cultivation. The total area granted was 3,289 acres 19 guntas at a temporary assessment of Rs. 2,286. The expansion of cultivation also received a check. As compared with the previous year there was an increase of 3,346 acres in the area relinquished, and a decrease of 20,451 acres in the area newly taken up for cultivation. The net increase in the area under occupancy was only 43,130 acres as against 66,927 acres in 1912-13. The unfavourable seasonal conditions had an even more appreciable effect on the area cropped, which showed a decrease of 259,019 acres from that in the previous year and was 70,753 acres short of the average for five years.

5. The outturn of crops was much below the average, except in the Malnad. Excepting in the Mysore District, where owing to the extensive irrigational channels, there was a marked increase of paddy cultivation, large areas were fallow in other parts of the State. There was a shrinkage both in the area and the outturn of ragi. Cotton also showed a decrease of about 40 per cent in area in the Chitaldrug District, where it is most extensively grown.

6. The supari, coffee and cardamom crops were good, but there was a slight fall in the prices of coffee and cardamom. The deficiency in the outturn affected the prices of food grains though only to a slight extent owing to the tendency towards the equalization of prices due to the growth of communications. Rice of the ordinary sort kept at the previous year's level, while the prices of ragi, jola and Bengal gram rose slightly.

7. There were no abnormal movements of population and the contraction in agricultural operations was more than counterbalanced by the activities of the Public Works and Railway Departments which provided profitable employment for

No. R. 7561-9 —L. R. 335-11-3, DATED 26TH FEBRUARY 1915.

labour on an extensive scale. Though the year was on the whole one of much agricultural depression, there was no actual distress.

8. *Darkhasts.*—There was a fall in the number of darkhasts received while the disposal continues to be unsatisfactory. The number disposed of was 9,820, out of 19,923 or 44·22 per cent. The arrears are heavy in all the districts but are most noticeable in the Mysore and Bangalore Districts. Though the delay is sometimes due to the difficulty of sub-dividing survey numbers applied for, specially when they consist of gomal or kharab lands, it is more often caused by the perfunctory manner in which the records are prepared in the lower offices. Every local revenue officer should be enjoined to make an earnest attempt to reduce the arrears as much as possible during the current year, and the names of officers who show the best results may be brought to the notice of Government. The Revenue Commissioner is also requested to examine all existing rules carefully, and submit proposals for preventing in the future delays which are equally prejudicial to the interests of ryots and of Government.

9. *Eksal Darkhasts.*—There was a fall in the number of eksal darkhasts and though this result may be attributed to a certain extent to the unfavorable seasonal prospects, there can be no doubt that the system is not sufficiently understood by the people and is probably in need of improvement in the light of the experience gained. The Revenue Commissioner is requested to consult Deputy Commissioners and suggest some measures to make the system more popular without prejudice to the interests of permanent occupants.

10. *Kumri cultivation.*—Kumri cultivation which has been revived with suitable restrictions to encourage the settlers in the fertile regions bordering on the ghats is reported to be making steady progress. It is stated that the Malnads of the Shimoga and the Kadur Districts which are largely dependant on imported labour could not secure their full requirements owing to the attraction of better wages elsewhere. Deficiency of labour constitutes one of the most important economic problems of the Malnad which has to be investigated by the Malnad Improvement Committee.

11. *Jamabandi.*—Jamabandi was begun in time in almost all the districts, but could not be completed before the kistbundi in any district. The time taken for each taluk shows that the work was not unduly hurried through. Government regret to observe that it is reported that the Deputy Commissioner of the Hassan District has for the third time in succession omitted to submit his jamabandi reports in spite of reminders from the Revenue Commissioner.

12. *Demand, Collection and Balance.*—The total net demand under land revenue for the year, inclusive of the previous year's arrears, but exclusive of remissions and sums written off, amounted to Rs. 1,18,62,006 or Rs. 51,540 more than in 1912-13. A sum of Rs. 1,05,24,116 or Rs. 42,901 more than in the previous year was collected leaving a balance of Rs. 13,37,890. The net mohatarfa demand including the previous year's balance was Rs. 3,30,777 showing a decrease of Rs. 12,000. The collections amounted to Rs. 2,66,935 or Rs. 4,392 less than in the previous year leaving an uncollected balance of Rs. 63,842 at the end of the year. The fall in the mohatarfa demand has not been accounted for. The percentage of collection to demand was 88·7 in land revenue and 80·7 in mohatarfa which is almost the same as in the previous year. The collection of the current demand was satisfactory in the Shimoga, Tumkur and Bangalore Districts, and fairly good in all the other districts except Hassan where it was only 82·8 per cent of the total demand. It is reported that the collections were not adversely affected by the unpropitious seasonal conditions. This is also borne out by the fact that the number of coercive processes issued during the year fell from 75,895 in 1912-13 to 73,979, and that the revenue recovered thereby amounted to only 6·97 per cent of the total collections as against 9·66 in the previous year. Of the sum so recovered, 94 per cent was realized by the mere issue of a demand notice and sales were necessary only in respect of arrears to the extent of Rs. 33,633 as against Rs. 43,860 in the previous year. The number of processes has been steadily decreasing during the last three years showing that much discretion is exercised in the issue of processes.

No. R. 7561-9—L. R. 335-14-3, dated 26th February 1915.

13. *Land Improvement and Takavi Loans.*—Out of Rs. 1,17,000 sanctioned for granting land improvement and takavi loans during the year a sum of Rs. 84,132 was utilized for the grant of loans in 640 cases. Out of this amount Rs. 40,539 were granted as takavi loans, and Rs. 43,595 for miscellaneous improvements to lands including construction of irrigation wells. The total number of applications to be dealt with during the year was 1,486, of which 875 were disposed of leaving 611 applications for loans aggregating Rs. 1,68,542 pending at the close of the year. The total amount advanced was nearly twice the average disbursements of the three previous years.

14. Out of the total outstandings of Rs. 1,40,701 under this head for the year a sum of Rs. 89,104 or 62·3 per cent is reported to have been recovered. This is not satisfactory.

15. The Revenue Money Order system which was introduced tentatively for three years in May 1911 is being taken advantage of extensively in the Mysore and Kolar Districts, but does not seem to be sufficiently known in the other parts of the State. The Revenue Commissioner's special report on the working of the system during the last three years is awaited.

16. *Raiyat's Receipt Books.*—Government are glad to note that the old patta books are being gradually replaced by the new, and that a fairly large percentage of the pattas was scrutinized by Taluk and Sub-Division Officers.

17. *Boundary Marks.*—The inspection of boundary marks continues to be unsatisfactory. All the Deputy Commissioners report that the condition of the marks is good but this assurance loses much of its force when it is seen that no systematic inspection has been attempted anywhere except in the Mysore District. It is stated that the boundary marks in wet fields in the Mysore and Hassan Districts are not readily traceable, and this is apparently the result of continued past neglect to inspect and renew them whenever necessary. The attention of the Deputy Commissioners should be drawn to the need for taking some special measures to replace the missing boundary marks and to prevent their further deterioration. The question of revising the existing rules which require the deputation of taluk officials for test inspection is under separate consideration.

18. *Tanks.*—The number of major tanks restored and repaired was 459 as against 410 in the previous year, while the amount spent on them was Rs. 2,29,615 as against Rs. 2,59,378 in the previous year. The number of minor tanks dealt with was 562 at a cost of Rs. 99,130 as against 393 at a cost of Rs. 65,856 in the previous year. The total value of earthwork done by the raiyats to major and minor tanks amounted to Rs. 43,015 and Rs. 66,364 respectively, as against Rs. 61,323 and Rs. 74,187 in the previous year. The rules relating to the restoration of minor tanks have been recently revised and a new scheme has been sanctioned having for its object a greater degree of co-operation from the people in regard to raising funds as well as in carrying out the works.

19. Some progress has been made with the Tank Panchayet Scheme, 30 panchayets having already been formed, and others being in the course of constitution. As these bodies will if carefully selected and guided, be able to exercise an effective control over the proper maintenance of tanks and in regulating the distribution of water and the development of the minor tank scheme; it is hoped that no efforts will be spared to increase their number and efficiency.

20. *Village Improvement and Malnad Improvement Schemes.*—Much useful work was done during the year through the agency of revenue officers in stimulating agricultural improvements and advancing industries and education. Two new schemes were introduced during the year with a view to promote the development of the rural and backward parts of the State. A fair amount of work was done under the Village Improvement Scheme, though it was in force for only a few months in the year, and Government have great hopes in the success of the scheme as both revenue officers and the people realize the opportunities it affords for improving the condition of villages by spreading education, increasing occupations and raising the general standard of health and living. Under the system of grant-in-aid provided by the scheme, works costing Rs. 1,25,211 were carried out by the village agencies.

No R 7561 9 -L R 335 L C, DATED 26TH JANUARY 1915

21 The Mulnad Improvement Committee has also done a great deal of preliminary investigation and is now directing special efforts towards improving the material and moral surroundings of the people in the mulnad by stimulating the construction of good houses and by providing facilities for education better sanitation, medical assistance and communications

22 *Avenue Trees and Village Roads*—Avenue trees are reported to have been in good condition A large number was planted during the year but the operations were severely handicapped by deficient rainfall Steps should be taken to suitably cover up with earth, roots of avenue trees, wherever by neglect the earth has got washed away and the roots are exposed The existing village roads are reported to have been maintained in a fairly good condition A few new roads have been opened in some of the districts but the unfavourable seasonal conditions seem to have impeded the progress of this work also One Mr Annamma of Gaddatotti is said to have laid out a new road in the Koppa Taluk at an expense of Rs 1,000

23 *Inspection and itineration*—The work of inspection of all offices received special attention during the year All the districts were inspected by the members of Government The Revenue Commissioner also toured for 80 days during the year He inspected all the District Treasuries and a few Taluk Treasuries also The Deputy Commissioners and the Sub Division Officers also did a fair amount of inspection, but on the whole, the work done cannot be considered adequate The Deputy Commissioners of Bangalore, Tumkur Hassan and Kadur Districts did not camp out for the prescribed minimum number of days The Deputy Commissioner of the Bangalore District camped out the least number of days *viz*, 60, which includes 19 days spent outside the district With the exception of the Sub Division Officer of Maddagiri, who camped out for 212 days, none of the other Assistant Commissioners toured for the minimum number of days prescribed by the standing orders The inspections also lose much of their value by their not being undertaken according to any fixed programme, and by being characterized by a certain amount of aimlessness Inspecting officers would be able to produce better results if for each taluk or district they keep with them lists of important things to be done and check progress from time to time

24 *District and Taluk Establishments*—District and Taluk establishments were revised during the year and Government trust that the revision will tend to improve the efficiency of work in Taluk and District Offices and that the Heads of the Offices concerned will see that no occasion is given hereafter for complaints of delay in transacting work and disorder in the preservation of records

25 *Village Officers*—Several shanbhogs of the districts of Bangalore, Tumkur, Mysore, Shimoga, Kadur and Chitaldrug are stated to have received survey training from District Surveyors in classes specially held for the purpose The gradual replacement of illiterate patels and incompetent shanbhogs by duly qualified men is reported to be in progress Government note with pleasure that the work of this useful class of public servants is improving in quality The Revenue Commissioner's observation that village service requires to be made more attractive in view of the increased responsibilities consequent on the village improvement and other activities has been noted for the consideration of Government

26. Government are glad to observe that on the whole the administration of the Revenue Department continues to be satisfactory.

Royalty on road materials.

No. R. 7503-12—L. R. 314-12-2, DATED 26TH FEBRUARY 1915.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Letter No. 10360, dated the 21st December 1912, from the Chief Engineer of Mysore submitting for orders letter No. 7220, dated the 23rd November 1912, from the Superintending Engineer, Northern Circle, stating that under Rule 18 of the Revenue Rules royalty may be charged on road material, but no mention is made of them in Appendix A to the Revenue Rules, in which the rates of royalty are prescribed, and that in the Hassan District, however, royalty is demanded on such materials thereby causing obstruction to road works, and suggesting that these materials may be exempted from royalty as otherwise the allotments for roads, which have now been reduced to minimum limits, will have to be proportionately increased.

Order No. R. 7503-12—L. R. 314-12-2, dated 26th February 1915.

The payment of royalty on road materials collected from Government lands is governed by rule 20 of the Land Revenue Rules and not by rule 18. It is explicitly laid down in this rule that the removal of earth, stone, kankar, sand, murram, and other materials by Public Works contractors for Government works or works of public utility, is subject to the payment of such royalty as may be prescribed by Government.

2. The Chief Engineer suggests the exemption of road material from royalty charges on the ground that the existing rates do not make allowance for the payment of such charges and that road allotments will have to be increased if the exemption is not granted.

3. The Revenue Commissioner, who was consulted in the matter, is of opinion that in the interests of Government lands of various descriptions, it would be unsafe to amend rule 20 so as to exempt the removal of road material from royalty. Government agree with this view. Apart from the fact that it is inexpedient to allow the removal of materials by contractors to the prejudice of revenue legitimately due under the rules, the insistence of the payment of royalty would have the incidental advantage of giving a voice to the local revenue officers in the selection of places for quarrying, etc. The Chief Engineer's suggestion does not therefore commend itself to Government.

4. As it is stated that the practice in this respect is not uniform in all the districts, Government are pleased to direct that royalty be charged invariably on all road materials collected by the contractors of the Public Works Department and other departments under rule 20 of the Land Revenue Rules.

5. The question of payment of royalty by the Public Works Department on materials removed by departmental agency will receive separate consideration.

Para 12 of Government Order No. R. 3298-322-L. R. 305-09-2, dated the 18th November 1910, directing that the owners of sites within the limits of villages containing 20 houses and above and under the control of local bodies, should not be allowed to keep them in a filthy or insanitary state or overgrown with weeds or noxious vegetation contrary to para 6 of Section III of the Village Sanitation Rules and that a clause should be added to the Village Sanitation Rules making the cost of clearing lantana or Prickly-pear, which, in spite of previous notice has not been removed within a specified time, recoverable as an arrear of land revenue irrespective of any other penalties to which the holder of the site may be liable under the rules or any other law.

Order No. R. 7331-55—L. R. 491-14-1, dated 23rd February 1915.

On further consideration, Government are of opinion that no addition to the Village Sanitation Rules is necessary, as para 1 of Section VIII provides a sufficiently deterrent penalty for a violation of para 6 of Section III.

2. The fine recovered in such cases should, as far as necessary, be applied by the Municipal or District Board concerned, for eradicating the noxious vegetation or other source of insanitation by paid agency.

Period of Itineration of Assistant Commissioners.

Para 14 of Government Order No. R. 3891-935, dated the 11th April 1903, laying down that Assistant Commissioners in charge of taluks should tour in their charges for not less than seven months in the calendar year.

Read—

Letter No. 3539, dated 18th September 1914, from the Revenue Commissioner in Mysore, forwarding with his opinion reports received from the Deputy Commissioners of Districts (except Hassan) regarding the curtailment of itineration prescribed for Assistant Commissioners in charge of Sub-Divisions.

Order No. R. 7406-16—L. R. 384-14-2, dated 24th February 1915.

In prescribing a minimum of seven months itineration in the year for Assistant Commissioners in charge of taluks, it was felt that a relaxation of the rule requiring the trial of Criminal cases at headquarters would be necessary and a partial modification was made by the Chief Court in 1904 at the instance of Government.

2. It has, however, been noticed that Assistant Commissioners in charge of Sub-Divisions have seldom been able to do the full amount of touring required of them, presumably as the result, in great part, of the bulk of their magisterial work being still posted at headquarters.

3. As it was considered undesirable to continue a minimum which could not conveniently be adhered to in practice, the Revenue Commissioner was requested to investigate the necessity for reducing it, and submit proposals, if necessary, in consultation with the Deputy Commissioners.

4. There is a general consensus of opinion that the existing minimum of seven months is excessive, and cannot be usually reached without prejudice to judicial and other important duties. Of the Deputy Commissioners, the majority are in favour of lowering the minimum to 150 days, while the Revenue Commissioner is of opinion that it would be sufficient to fix it at 120 days.

5. On a careful consideration of the question, Government are satisfied that the existing minimum of seven months is rather high, and are accordingly pleased to reduce it to six months. The Deputy Commissioners should see that touring is ordinarily done according to a well considered programme with due regard to the requirements of each taluk in the sub-division. The diaries of Assistant Commissioners should be carefully scrutinised and suitable instructions given from time to time if necessary.

6. The Registrar of the Chief Court should obtain and forward to Government at an early date the opinion of the Chief Court regarding the trial of Criminal cases by Assistant Commissioner Magistrates at taluk stations more largely than now whether the cases pertain to the taluks concerned or not, provided the stations chosen are convenient to parties and witnesses.

7. The Revenue Commissioner is requested to see that the prescribed itineration is strictly enforced.

Correspondence ending with letter No. 24, dated the 27th August 1914, from the Superintendent of Revenue Survey in Mysore, submitting a report regarding the progress of the Resurvey operations in the State.

Order No. R. 7515-24—L. S. 7-14-3, dated 26th February 1915.

Though the resurvey operations commenced in 1900, revision settlement has so far been introduced only into 22 taluks. It is reported that the work of resurvey and reclassification is complete in the late Banavar, Harnahalli, Gudibanda, Belur, Nelamangala, Tarikere, Koppa, Lakkavalli and Chiknayakanhalli Taluks; and that in the old taluks of Kadaba, Magadi, Honnavalli, Kunigal and Hassan, only resurvey is finished. The report relating to the Maddagiri Taluk is pending with the Revenue Commissioner. The subjoined statement gives the details of taluks in which resettlement has already been introduced, those in which it is already due and those in which it becomes due during the next three years.

Taluks in which resettlement has been introduced	Taluks in which it is due	Taluks in which it becomes due during the next three years
1. Davangere	1. Dodballapur	1. Hoskote
2. Hiriyur	2. Nelamangala	2. Devanhalli
3. Chitaldrug	3. Magadi	3. Sidlaghatta
4. Holalkere	4. Late Gudibanda	4. Chikballapur

6. Challakere	6. Maddagiri	6. Hunsur
7. Budihal (late)	7. Chiknayakanhalli	7. Yedatore
8. Molakalmuru	8. Kadaba (late)	8. Heggaddevankote
9. Channagiri	9. Honnavalli (late)	9. Krishnarajpete
10. Bangalore	10. Kunigal	10. Channarayapatna
11. Sorab	11. Hassan	11. Narsipur
12. Sagar	12. Manjarabad	12. Arkalgud
13. Shikarpur	13. Belur	
14. Pavagada	14. Arsikere

19. Shimoga	19. Late Lakkavalli	
20. Koratagere (late)	20 Mudgere	
21. Nagar		
22. Tirthahalli		

It is evident that at the present rate of progress it is impossible to introduce revision of settlement into a taluk before the expiry of at least five years after it is due and the whole operations are likely to occupy a much longer time than was originally anticipated.

The Survey Superintendent states that the operations have been retarded by delay on the part of the Revenue Department in furnishing the necessary statistics and in carrying out the phut pahani work. It is possible that the delay in the preparation of statistics is due less to slackness or reluctance than to inexperience in

compiling the statistics, and ignorance of the purpose for which the figures are wanted. The Superintendent of Survey is requested to print and issue in consultation with the Revenue Commissioner a clear memo of instructions regarding the manner in which the accounts should be got ready.

The Revenue Commissioner is also requested to instruct the Deputy Commissioners to see that there is no avoidable delay, and that the phut pahani work is completed in time to admit of the submission of the Survey Superintendent's proposals to Government within six months of the completion of the measurement and reclassification operations.

3. The Survey Superintendent is requested to see that reclassification is not unnecessarily delayed after the survey operations are completed.

The responsibility for the introduction of revision of settlement as soon as possible after the expiry of the guaranteed period rests with him and Government trust that he will make a special effort to cope with the existing arrears and see that better progress is made hereafter. Where the interval between the date of the expiry of the guaranteed period and of submission of proposals to Government exceeds two years adequate explanation should be furnished with the report for the delay. A quarterly statement of work done by each officer in the Department should be submitted for the information of Government.

Government Order No. R. 2189-98—Agri. 1-14-34, dated 11th September 1914, requesting the Conservator of Forests to keep himself in touch with the Deputy Commissioners of Districts and be in readiness to meet requisitions for hay owing to scarcity of fodder.

2. Letter No. 7121, dated 20th January 1915, from the Conservator of Forests in Mysore, stating that the Deputy Commissioner, Mysore District, has requested him to make arrangements for cutting grass in State Forests so as to have hay in readiness owing to an apprehended scarcity of fodder during the next summer, and suggesting the desirability of encouraging raiyats far and near State Forests to cut and store grass as a preventive measure before the scarcity is actually felt, and adding, that if at any time the situation should really need it there are three presses for compressing hay which will be made use of to meet emergencies.

Order No. R. 6646-55—Agri. 1-14-55, dated 2nd February 1915.

The suggestions of the Conservator of Forests are approved. The Deputy Commissioners of Districts are requested to give wide publicity to the fact that raiyats will be allowed to cut and store grass free of cost from State Forests in all localities where scarcity of fodder is apprehended.

Local officers should also be instructed to do their best to induce raiyats to avail themselves of this concession. In cases of emergency, however, the Forest Department should be in readiness to supply compressed hay.

Memo No 7287, dated the 9th October 1914, from the First Assistant to the Hon'ble the Resident in Mysore, forwarding copy of a letter from the Government of Madras, enquiring whether the Mysore Durbar would co-operate with them in organizing a campaign against rinderpest by providing an adequate mobile Veterinary staff and permitting their Veterinary officers to settle details of operations in direct conference with the Madras Civil Veterinary Department.

2. Correspondence ending with letter No. 7186, dated the 21th December 1914, from the Revenue Commissioner in Mysore, concurring in the desirability of co-operating as suggested, and recommending that the existing staff of the Mysore Civil Veterinary Department should be strengthened by the addition of four Assistant Veterinary Inspectors and four salustris, and stating that the Superintendent of the Mysore Civil Veterinary Department might with advantage be permitted to confer directly with the Superintendent of the Madras Civil Veterinary Department.

Order No. R. 7016-17—Agri. 36-14-8, dated 16th February 1915.

In order to ensure effective co-operation with the Civil Veterinary Department of Madras in undertaking an organized campaign against rinderpest, Government are pleased to sanction the following additional establishment to the Civil Veterinary Department of the State, temporarily, for three years in the first instance :—

(i) Four Assistant Veterinary Inspectors on Rs. 30 per mensem each.

(ii) Four salustris on Rs. 15 per mensem each.

2. The Superintendent of the Civil Veterinary Department, Mysore, will settle the lines of work pertaining to preventive inoculation, etc., in the frontier taluks in direct consultation with the Superintendent of the Civil Veterinary Department of Madras.

3. The staff now sanctioned will be entertained immediately after a programme of work is arrived at, and will constitute an addition to the mobile corps of the department when not on duty elsewhere, an Assistant Veterinary Inspector and a salustri will ordinarily be attached to each of the Veterinary Hospitals at Bangalore, Mysore, Shimoga and Chikmagalur, and should attend to Hospital work.

4. In consequence of this order, the following additional expenditure is sanctioned for the remaining part of the current year to be met from the lump sum provision of Rs. 10,000 made for the construction of additional Veterinary Dispensaries :—

		Rs.
1.	Pay of four Assistant Veterinary Inspectors on Rs. 30 each per mensem for three months	360
2.	Pay of four salustris on Rs. 15 each for the same period... ...	180
3.	Travelling allowance	400
4	Initial cost of equipment	400
	Total ...	1,340

5. Due provision should be made for the charge in future budgets.

Government Proceedings No. R. 6381-6424—L. R. 480-12-1, dated the 5th May 1912, approving, among other matters, of the free grant to the raiyats of Government and Inam villages, who have to abandon their houses in the bed of the Kannambadi Reservoir and take up lands in exchange elsewhere, of timber and other building materials on the same scale as that allowed to agriculturists for reconstructing their houses destroyed by accidental fires.

2. Letter No. 13465, dated the 8th May 1914, from the Revenue Commissioner in Mysore, submitting for orders, a letter from the Deputy Commissioner, Mysore District, with the proposals of the Special Land Acquisition Officer, specifying the classes of cases requiring the free grant of building materials.

3. Note* dated the 9th November 1914, from the Secretary to Government, Public Works Department, submitting the proceedings of a conference of the undermentioned officers held at Bangalore on the 4th November 1914, setting forth the conclusions arrived at in the matter:—

*Printed as an accompaniment.

1. Mr. Karpur Shrinivasarav, Chief Engineer, in the Chair.
2. Mr. M. G. Rama Rao, Offg. Conservator of Forests.
3. Mr. B. Subba Rao, Superintending Engineer, Cauvery Reservoir Works.
4. Mr. L. Krishna Rao, Special Land Acquisition Officer, Cauvery Reservoir Works.

Order No. R. 6906-10—Ft. 170-13-2, dated 10th February 1915.

The cases to which the proposed concessions apply may be classified as under:—

(i) houses coming under submersion;

(ii) houses which, though not submerged, belong to raiyats who lose their lands and have to settle elsewhere;

(iii) houses of shikmidars and agricultural labourers who have to shift their residence and accompany their landlords;

(iv) Chavadis, schools, etc.

2. The case of houses which actually come under submersion is covered by the Government Order read above, and the concession recommended is clearly admissible.

3. In regard to houses which, though not submerged, have to be abandoned through raiyats having to settle elsewhere, there can be no doubt that these raiyats are entitled to as considerate a treatment as the owners of submerged houses. The Chief Engineer states that the arrangement arrived at in the conference was that building materials were to be supplied free to these raiyats also, but that the cost which is estimated roughly at Rs. 22,500, should be shared equally between the Forest Department and the Public Works Department, the latter adjusting its portion out of the provision for compensation in the Cauvery Reservoir Works budget. This proposal is reasonable and is sanctioned.

4. Though strictly speaking the shikmidars may not be entitled to any concession, yet, in view of the hardship which would result from their being disturbed from their settled habitations and compelled to seek new homes with their expropriated landlords, Government are pleased to direct that building materials of the value of Rs. 7-8-0, per house, may be granted to them free of cost.

5. The cost of materials to be granted for the construction of chavadis, schools, etc., is estimated at Rs. 6,000. Government consider that the cost of the timber supplied for such new buildings as are intended to replace those destroyed by submersion, should be paid out of the amount allotted for compensation.

No. R. 6906-10—Ft. 170-13-2, dated 10th February 1915.

The grant of materials for other buildings and the adjustment of their cost should be regulated according to the standing orders noted in the margin.

3. No. R. 3198-9—Ft. 154-07-5, dated 21st November 1908.

6. The Forest Department will be allowed to take credit in the accounts for all materials supplied by them free of charge under the authority of this order.

7. Timber and other building materials granted free under this order, should, as a rule, be taken from the District Forests, permission to remove them from State Forests being strictly confined to cases where they are not available in District Forests.

8. In order to avoid delay in the grant of relief to the expropriated raiyats, Mr. L. Krishna Rao, Special Land Acquisition Officer, is invested with the powers of a Deputy Commissioner to grant licenses for the removal of timber, etc., up to a value of Rs. 25, in each case, after consultation with the District Forest Officer.

9. All cases involving a free grant of timber exceeding Rs. 25 in value in each individual instance should be submitted for the orders of Government.

10. The Deputy Commissioner, Mysore District, should, in consultation with the Conservator of Forests, issue such subsidiary instructions, as may be deemed necessary, to secure proper supervision by the Local Revenue and Forest Officers for preventing the unauthorized or excessive removal of building materials under colour of the concessions granted in this order.

ACCOMPANIMENT.

Note dated 9th November 1914, from the Secretary to Government, Public Works Department.

A Conference was held in Bangalore to settle the concessions regarding the grant of building materials, such as timber, etc., to the raiyats affected by the Cauvery Reservoir Scheme.

2. The accompanying Memorandum clearly shows the conclusions arrived at, and it is requested that formal sanction of Government may be conveyed to the recommendations therein made so that the Revenue, the Public Works and the Forest Officers concerned, may work harmoniously in accordance with the conclusions now reached.

3. A special reference is invited to paragraph 11 (3) of the Memorandum, in which it is suggested that the Special Land Acquisition Officer should prepare detailed lists of forest produce required by each individual, for submission to the Deputy Commissioner, who after consulting the District Forest Officer, will issue the necessary licenses. This procedure will involve considerable delay, although in accordance with the rules in force.

4. The Special Land Acquisition Officer has already been empowered to pay money compensation up to Rs. 2,000 in each individual case, and as the value of the building materials to be granted by this special concession is not likely to exceed Rs. 25 in any individual case, it is requested that so far as the grant of these licenses is concerned, the Special Land Acquisition Officer may be empowered with the powers of a Deputy Commissioner. Otherwise, considerable delay is sure to be caused in the disposal of the applications. Also, the Deputy Commissioner will not be in a position to judge of the individual cases, as this would require a detailed enquiry on the spot. Under the circumstances, it would be in every way advantageous to invest the Special Land Acquisition Officer with the powers of a Deputy Commissioner for this special work of granting licenses. He will, however, send the requisitions to be countersigned by the District Forest Officer and, with this precaution, the interests of the Forest Department would be fully safeguarded.

5. The financial results of this concession can be approximately estimated as under for the first stage of the reservoir :—

	Rs.
(1) 650 houses coming under submersion at Rs. 15 each	9,750
(2) 1,500 houses of raiyats now losing their land but not their houses at Rs. 15 each	22,500
(3) 450 houses of shikmi raiyats at Rs. 15 each	6,750
(4) Chavadis, schools, etc.	6,000
Total ...	45,000
Deduct half of item (2) proposed to be charged to compensation ...	11,250
Net value of forest produce to be granted as a concession free of charge ...	33,750

6. There are various reasons why such charges should not be debited to the Public Works Department :—

(*a*) In the case of an old house, the compensation payable by this department would depend upon the value of the house as it stands, but the house owner to get the same accommodation in building a new house will have to spend much more than what he can claim for his old existing houses. It is therefore necessary to give relief to such house owners by granting free concessions of timber for building new houses.

(*b*) When a raiyat loses all his land but not his house, no compensation is paid by the Public Works Department for the house; but he cannot continue to live in his old house. When he loses all his lands situated hard by, he will have to build a new house; and for this purpose, he must spend a great deal more than what he can claim or receive from this department. It is therefore necessary that Government should help such raiyats by granting some concessions as shown above.

(*c*) Shikmi raiyats who own no lands can claim no compensation from this department; but yet they will have to go to the new fields of their landlords, often situated far away from their present villages and build new houses for themselves. The money value of the concession shown by Government in the Forest Department in this case may not be charged to this department.

(*d*) In the cases of Chavadis, Dharmasalas, etc., the concessions now asked for are such as are usually granted by the Forest Department according to the rules in force and so the charges would not be debitable to this department.

7. It is requested that very early sanction be accorded to the following :—

(1) General approval to follow the recommendations of the Conference as per accompanying Memorandum.

(2) Investing the Special Land Acquisition Officer with the powers of a Deputy Commissioner for granting licenses under these proceedings.

(3) The free grant of forest materials up to Rs. 33,750.

Proceedings of the Meeting held on 4th November 1914 in the Office of the Chief Engineer of Mysore, Public Works Department, Bangalore, for arriving at a working basis regarding the free grant of building materials, etc., to the raiyats who will be compelled to leave their present houses and build new ones elsewhere.

PRESENT

Mr Karpur Shrinivasaiay, *Chief Engineer*, in the Chair
Mr M C Rama Rao, Conservator of Forests
Mr B Subba Rao, Superintending Engineer, Cauvery Reservoir Works
Mr L Krishna Rao, Special Land Acquisition Officer, Cauvery Reservoir Works.

Read—

(1) References from the Superintending Engineer, Cauvery Reservoir Works, and the Special Land Acquisition Officer Cauvery Reservoir Works, regarding the several classes of raiyats required to be shown concession in the matter of supply of building materials

(2) Government Order R 6381-6424—L R. 480 12 1, dated the 5th May 1913, paragraph 12, regarding the free grant of building materials

I There are four classes of houses to be considered —

(i) houses coming under submersion in the bed of the Reservoir;

(ii) houses of persons losing their lands, but not their houses, and who are obliged to select new lands elsewhere and build houses there;

(iii) Houses of shikmi raiyats required to accompany their landlords, though their houses do not come under submersion;

(iv) chavadis, schools, etc., required to be built in the new villages to be constructed

The question was discussed and the following agreement was come to —

(i) Cases of raiyats whose houses come under submersion in the bed of the Reservoir

This comes under the ruling in paragraph 12 of the Government Order referred to above The raiyats concerned will be granted the concession asked for

(ii) Cases of raiyats who lose their lands but not their houses in the bed of the Reservoir and who are compelled to build new houses elsewhere

This is not expressly covered by the Government Order, and it was agreed that the building materials may be given to these raiyats at half the seigniorage rates

(iii) Cases of shikmi raiyats who are obliged to change their place of residence to accompany their landlords This comes practically under clause I, and the same concession may be granted in the cases of this class of raiyats

(iv) Cases of chavadis, schools, etc

This may be considered and dealt with under the existing rules as regards each class of buildings and concession, where allowable, given accordingly

II. Ordinarily, free grants should be made from District Forests which are under the control of the Revenue authorities, and not from State Forests Permission for removal of the materials from the State Forests will only be granted when the responsible forest officers are satisfied that they are not available in the District Forests, or that their removal therefrom is exceptionally difficult.

(1) These grants should be restricted to *bona fide* agriculturists including shikmidars, and the value of the materials recommended should not generally exceed the amount of kandayam payable by them

(2) In cases in which the Special Land Acquisition Officer thinks that special treatment is called for or when non-agriculturists are recommended for the concession, a full statement of the case should accompany the recommendations.

(3) The Land Acquisition Officer will prepare a statement in the form already prescribed by Government and now in use, mentioning the names of individuals recommended for free grants, the amount of kandayam paid by each of them, the kind of materials required and their value at the prevailing seigniorage rates together with information as to the extent of other properties owned by each of them This statement will be forwarded to the Deputy Commissioner, who, after consultation with the District Forest Officer, will issue licenses for the felling and removal of materials.

(4) Free grants must, as far as possible, be restricted to the extraction of unreserved timber and in cases in which reserved timber is indented for from a District Forest, or when the materials are asked for from a State Forest, the Deputy Commissioner will forward such papers for the orders of the Conservator of Forests noting his opinion thereon

(5) The Deputy Commissioner may be empowered to issue materials from the District Forests up to the value of Rs 25 in each individual case, the same limit being fixed to the Conservator's powers of sanction in the case of State Forests. Recommendations in respect of materials whose value exceeds this limit, will be submitted to Government for sanction by the Deputy Commissioner or the Conservator of Forests as the case may be

(6) After the issue of licenses, the raiyats will extract and remove the materials from the forests to the extent noted in the licenses, such materials being liable to check by the Forest, Police or Revenue officials in the same way as any other forest product.

No. R. 6906-10—Ft. 170-13-2, dated 10th February 1915.

(7) The departmental staff cannot ordinarily undertake the work of extraction for the raiyats on account of the considerable strain devolving on the already overworked subordinates. But in some special cases where it could be conveniently done, the materials will be felled and delivered from the depots or other convenient spots by the department, all *bona fide* charges for felling and cartage being borne by the raiyats to whom they are intended.

(8) Grants for chavadis, schools and choultries will be regulated according to the procedure laid down in the following Government Orders :—

(1) No. 2146—Rev. 190-202, dated 11th September 1877.

(2) No. 3253-64—L. F. 59-94, dated 6th September 1895.

(3) No. R. 3198-9—Ft. 153-07-5, date 21st November 1908.

(9) The Deputy Commissioner will submit to the Conservator of Forests every month for transmission to Government with his remarks, a statement of free grants of timber made to raiyats for building houses or schools or chavadis.

Order No. R. 7064-5—Ft. 146-12-4, dated 18th February 1915.

The working plan which is generally suitable is approved.

2. In view, however, of the requirements of raiyats in the tract affected by the working plan and complaints of hardship which have come to the notice of Government in regard to the insufficiency of fuel and grazing, Government are pleased to direct that the following concessions be extended to the villages adjacent to the forests included in the working plan:—

Exemption from the payment (1) of grazing fee in respect of 7 head of cattle and (2) of seigniorage in respect of 4 cart-loads of fuel per year when no fuel is available in the District Forests, in favour of every raiyat paying a kandayam of Rs. 10 or more, per annum, to Government green wood may be permitted to be removed when dry wood is not available.

3. The Deputy Commissioner should see that these concessions are not extended to villages which are otherwise well supplied with fuel and pasture and that they are correctly described in the settlement registers of the forest concerned.

2. Government Order No. R. 974-83—Ft. 139-10-2, dated the 4th August 1911, directing that in the case of Inam villages the bonus should be paid to the Kadim tenant, if there is one, or to the Inamdar himself.

3. Letter No. 11921, dated the 18th May 1914, from the Conservator of Forests in Mysore, requesting orders as to whether the Government Order of the 4th August 1911, referred to above, applies to Inam villages in which the right to sandal trees has been conceded to the Inamdars, whether in such villages it is not the Inamdars that ought to pay the bonus to their tenants, and whether the Forest Department which exploits the sandalwood in such villages and sells it for the Inamdars, can pay the bonus to their tenants from out of the proceeds of sale as it would be difficult for the raiyats to obtain payment otherwise.

Order No. R. 7191-201—Ft. 191-13-2, dated 19th February 1915.

The rules issued under the Government Orders read above are not applicable to Inam villages in which the right to sandal trees has been conceded to the Inamdar.

2. The tenants in such villages cannot, in the absence of an express agreement, be deemed entitled to a bonus from the Inamdar for preserving the sandal trees belonging to him, and the mere fact that an Inam village is under Government management cannot confer new rights or impose additional liabilities on the tenants. The Forest Department cannot, under the circumstances, pay a bonus to the tenants of such Inam villages, as it is not a charge which the Inamdars are bound to accept.

Letter No. 4581—S. A. 416, dated the 15th December 1914, from the Comptroller to Government, forwarding his report on the working of the Government Savings Banks in the State for the year ending 30th June 1914.

Order No. Fl. 4155-64—G F. 80-14-2, dated 18th February 1915.

Recorded.

2. In the year under review, there was a net increase of 606 accounts contributed chiefly by the Districts of Mysore and Shimoga.

3. The total amounts deposited and withdrawn during the year were Rs. 34,20,404 and Rs. 36,24,706 against Rs. 30,65,843 and Rs. 28,78,833 in the previous year with the result that there was an excess of withdrawals to the extent of Rs. 2,04,302 during the year as compared with an excess of receipts amounting to Rs. 1,87,010 during the preceding year. The net withdrawals were large in Bangalore (Rs. 1,63,673), Shimoga (Rs. 1,06,113) and Kadur (Rs. 95,734), while, on the other hand, Kolar, Hassan and Chitaldrug showed net receipts of Rs. 1,00,795, Rs. 61,706 and Rs. 22,386 respectively. The excess withdrawals in some districts were due to some extent to unfavourable seasonal conditions but mostly to transfers for investment in the newly started Bank of Mysore and in Co-operative Societies.

4. The balance at the credit of Savings Bank accounts rose from Rs. 77,23,210 to Rs. 77,57,362 during the year under review, the increase being due to addition of interest.

5. The average amount at the credit of each depositor for the whole State was Rs. 273 against Rs. 279 or Rs. 6 less than in the preceding year. The averages for the districts except in the case of Bangalore were, however, much smaller, ranging from Rs. 229 in Chitaldrug to Rs. 271 in Shimoga, while that for Bangalore was Rs. 387.

6. There were 275 depositors holding more than Rs. 5,000 in the Banks, the corresponding number for the previous year being 263. The aggregate balance at their credit was 21·54 lakhs against 19·89 lakhs in the previous year.

7. Government regret to find that the system of nominations has not been availed of to any great extent and hope that with the steps which the Comptroller proposes to take, it will attain greater popularity.

8. Government are glad to find that a Savings Association has been started and is successfully working in the Comptroller's Office and agree with the Comptroller that there is scope for similar institutions in other large offices and establishments.

Order No. Fl. 4463-74—G. F. 9-14-69, dated 25th February 1915.

In the Dasara Representative Assembly of 1913 (general subject No. 165) a representation was made that the grant of house building advances now restricted to Government servants may be extended to non-officials also.

2. Government have given their careful consideration to the question and are of opinion that the system of advances either from General Revenues or from Municipal Funds cannot be extended as proposed to non-officials as expenditure incurred in building a house is not of a reproductive character and it will be more difficult to recover loans from the non-official public, than from officials from whose pay monthly deductions can be regularly made. In the case of Municipal Funds, there is the further difficulty that such advances are not authorized by the Regulation as it stands at present.

3. If however co-operative building societies are started by the public to encourage and facilitate house building, Government will be prepared to consider the question of giving them reasonable aid.

Order No. Fl. 4355-40—G. F. 146-14-1, dated 25th February 1915.

Under Article 51(*c*), Mysore Service Regulations an officer cannot receive a fee of more than Rs. 50 for work done for a private person or body without the special permission of Government. This rule applies to University and other Examinerships also, but the exact circumstances in which sanction of Government would be accorded has not been clearly laid down anywhere. To secure uniformity in according such sanction, Government are pleased to lay down the following principles for regulating all such cases in future:—

1. Sanction of Government should be obtained in each case, and the power of sanction will not be delegated to any subordinate authority.
2. Permission will ordinarily be given for work of a high and responsible character, *i.e.*, for examinerships in the highest examinations, when the bulk of the work is necessarily small.
3. Permission will be refused when the work is of an ordinary kind and of considerable bulk, *e.g.*, examinerships for Matriculation, Intermediate, etc., as such work, though done out of office hours, so exhausts an individual as to impair his working capacity in respect of his ordinary duties.
4. Officers of the Professional and Teaching Staff of the Education Department will be allowed to accept examinerships, without the limitation of (3) above, if the work of correcting the papers or the bulk of it falls during vacation.

Order No. Fl. 3872-3—S. R. 117-13-2, dated 8th February 1915.

The Inam Settlement has reserved this item of revenue to the State. The Inamdars have not adduced any evidence to establish their claim. The *ex parte* decision rejecting their right to the excise revenue from toddy was duly communicated to them. Agreeing with the Excise Commissioner and the Deputy Commissioner, Government hold that the Inamdars are not entitled to this item of revenue.

Order No. Fl. 3876-7—S. R. 49-14-2, dated 8th February 1915.

The Inam Settlement has reserved the right to abkari to the State. The Jodidars have not adduced any evidence to prove their title to the revenue in question, though the *ex-parte* decision rejecting it was duly communicated to them. The Excise Commissioner and the Deputy Commissioner hold that the claim has not been proved. Government agree with them and reject the claim to the excise revenue from toddy of the village.

Order No. Fl. 3908-9—S. R. 53-14-2, dated 9th February 1915.

The Inamdars of the village did not appear before the Investigating Officer and prove their title to the toddy excise revenue of the village, though they were personally served with notices and though the *ex parte* decision rejecting their claim was communicated to them. The Inam Settlement has reserved this item of revenue to Government. In these circumstances Government, agreeing with the Excise Commissioner and the Deputy Commissioner, hold that the Inamdars are not entitled to the revenue in question.

Letter No. 316, dated 17 18th November 1914, from the Commissioner of Stamps in Mysore, submitting the report on the administration of the Stamp Department for the year 1913-14

Order No. Fl. 4184-93—S. R. 30-14-3, dated 18th February 1915.

The issue of stamps of the new design bearing the portrait of His Highness the Maharaja, and the removal of the Stamp Manufactory from the Public Office Buildings to the new premises near the Government Press, were the two important events of the year in the administration of this department.

2. The stamp revenue was Rs. 10,66,358 which was the highest amount realised in any year, and was Rs. 1,24,924 more than that of the previous year, *viz.*, Rs. 9,41,434. The increase is noticeable under all the heads, except "Three-pie paper," the proceeds of which showed a decrease owing to the introduction of impressed sheets for copies of documents in Civil and Criminal Courts.

3. The expenditure of the department during the year was Rs. 57,406 against Rs. 98,335 in the previous year. The large decrease was due partly to the absence of extraordinary outlay such as that on new dies and machinery incurred in the previous year, and partly to the fall in the amount of refunds from Rs. 36,882 in 1912-13 to Rs. 9,164 in the year under review.

4. There were only two prosecutions for evasion of stamp laws instituted during the year, against 25 in 1912-13, and 7 in 1911-12. This decrease is not explained and Government trust that the officers concerned fully realise the importance of duly enforcing the Stamp Laws.

Letter No. 2627, dated the 21st October 1914, from the Excise Commissioner in Mysore, forwarding a Report on the Administration of the Excise Department for 1913-14.

Order No. Fl. 4194-203—S. R. 26-14-3, dated 18th February 1915

The following are some of the administrative measures of importance carried out during the year.

(1) Regulation VIII of 1913 was passed amending sections 56 and 57 of the Excise Regulation and making agents and servants employed by license-holders equally liable with their employers for acts and omissions on their part.

(2) The special detective establishment tentatively organised to give the subordinate staff of the Excise Department systematic training in detection work was continued for another year.

(3) The provisions of the Excise Regulation were extended to coca leaves, cocaine and other allied drugs.

(4) The sale price of methylated spirits was reduced and the limit of private possession without a permit was raised to two gallons.

(5) A duty of Rs. 3 was imposed on a seer of *bhang* imported into the State.

Financial results.

2. The total excise revenue realised during the year (including the arrears of previous years) was Rs. 55,26,079 against Rs. 50,66,297 collected in the preceding year. Deducting assignments towards local cess, refunds to Inamdars entitled to the toddy revenue of their villages and certain miscellaneous items, the net revenue of the Department during the year amounted to Rs. 52,04,308 as against Rs. 47,77,180 in 1912-13. The total current demand for the year amounted to Rs. 55,22,160 against Rs. 50,45,200 in the previous year. Of this a sum of Rs. 55,12,979 was collected, the percentage of collection being 99·8 against 99·4 in 1912-13.

The receipts for the year exceeded the figure of the previous year, which was the highest on record. The increase is contributed to by all the more important heads of excise revenue and is due partly to increased consumption and partly to keen competition at the time of the sales. The consumption of arrack during the year rose from 428,823 gallons to 466,107 gallons, showing an increase of 37,284 gallons. The number of trees tapped for toddy shops in the State, inclusive of trees tapped in the Madras Presidency, was 484,024 against 463,294 in the previous year.

To check the increase in consumption Government passed an order in April 1914 raising the still head duty on arrack and its selling price per gallon of 25° U. P. to Rs. 5-4-0 and Rs. 7-7-0 respectively, with effect from the commencement of 1914-15. Further, the enhancement of the rates of tree tax on toddy-yeilding trees is also under consideration.

The incidence of taxation per head of population was Re. 0-15-6 against Re. 0-14-4 in 1912-13.

No. Fl. 4194-203—S. R. 26-14-3, dated 18th February 1915.

3. There were 4,441 shops during the year as against 4,451 in the previous year. The number of shops since 1904-05 has been reduced by 875 in pursuance of the policy enunciated by Government.

Number of shops.

4. It is satisfactory to note that there has been much improvement in the quality of Ganja locally grown and there is good reason for hoping that with the experience gained by the raiyats and the comparative study of the system of cultivating ganja in the Madras Presidency, the local experiment will prove an unqualified success. The outturn of ganja should be reduced by reducing the area under cultivation so that a large surplus stock may not be left on hand. Every effort should be made to improve the quality of the stuff if smuggling of British ganja is to be minimised, if not altogether prevented.

Ganja cultivation.

5. During the year the payment of a sum of Rs. 28,859 was sanctioned to Inamdars whose claims to toddy revenue had been previously settled and the claims preferred by four Inamdars were disposed of.

Inamdars, claim to toddy revenue.

6. The number of excise cases reported in the year was 2,645 against 2,440 in the previous year. Of these 622 cases related to heinous offences. Out of 523 cases sent up for trial before the Magistrates, 479 cases were disposed of before the close of the year, the percentage of conviction obtained being 84·5 as against 85·8 in the previous year.

Prosecutions.

7. It is gratifying to note that the administration of the department has been maintained at the usual high level of efficiency.

Representative Assembly Subject No. 177 of 1913 representing that the existing rule regarding the levy of a penalty for the overtapping or careless tapping of toddy-yielding trees, in addition to tree tax, may be done away with on the ground that such levy is harassing to the contractor.

Order No. Fl. 4174-82–S. R. 182-13-3, dated 18th February 1915.

Government consider that a provision levying some penalty for careless or excessive tapping is quite necessary and that there is not sufficient reason to abolish or lower the rates now in force.

Letter No. 1946—120, dated 30th October 1914, from the Registrar, Chief Court, forwarding the Report on the Administration of Civil Justice in Mysore during the year 1913-14.

Order No. J. 2905—Cts. 121-14-3, dated 26th February 1915.

Original Work.—The total number of suits instituted in the Courts of the State during the year was 26,089 against 23,659 in the previous year, showing an increase of 2,430. The increase is larger in the original suits than in small causes. The number of ordinary suits disposed of during the year shows an increase of 937 and the number of small causes an increase of 234. Though the disposal of contested small causes shows a decrease of 103, yet the disposal of contested ordinary suits exceeds the disposal in the previous year by 363. Government, however, regret to observe that the average duration of contested small causes has increased from 153·10 to 193·71 days and is nearly three times the average duration of such cases in the Madras Presidency. Government will be glad if the Chief Court will issue suitable instructions to the Subordinate Courts for speedier disposal of ordinary and small cause suits in future.

2. *Appellate Work in Subordinate Courts.*—The number of appeals filed in the District Courts was 786 against 732 in the previous year and the number disposed of was 758 against 634 in the previous year, but the average duration has increased both in the Subordinate Judges' Courts and in the District Courts.

3. *Chief Court.*—The total number of appeals for disposal in the Chief Court was 615 against 614 in the previous year while the number disposed of fell from 515 in the previous year to 388 in the year under report.

4. *Inspection.*—Government note that a large number of Courts were inspected by the District Judges and the Judges of the Chief Court.

Letter No. 847, dated 15th October 1914, from the Inspector-General of Registration in Mysore, submitting the Report on the working of the Registration Department for the year 1913-14.

Order No. J. 2906-14—Regis. 19-14-3, dated 26th February 1915.

Recorded.

2. The number of documents of all classes registered during the year under report was the highest on record, namely 109,000 against 96,924 in 1912-13, showing an increase of 12·45 per cent. All the districts contributed to the increase. In the registration of documents relating to movable property there was a noteworthy increase of 519 or 27%. This is perhaps due to the reduction of fees on this class of documents which came into force from 1st July 1913.

3. Consequent upon the increase in the number of registrations the revenue of the department rose from Rs. 1,82,033 in 1912-13 to Rs. 2,08,178-5-5, that is by 14·36 per cent, during the year under report. There was also an increase of Rs. 2,635-10-7 or 3·09% in the expenditure which amounted to Rs. 87,787-9-8, due mainly to the revision of the clerical establishment of Sub-Registry Offices according to the new scale sanctioned in 1913.

4. There was no marked improvement in the inspection work done during the year. Not even one office was inspected by the District Registrar of Kadur, while the number of offices inspected by the District Registrars of Mysore, Kolar, Shimoga and Chitaldrug is only 1, 2, 2 and 3 respectively. The *ex-officio* Inspectors of Registration in the Mysore and the Bangalore Districts did not bestow as much attention as this important work required. Government observe that of the nine offices left uninspected during the year, those at Nanjangud and Yelandur have not at all been inspected during the last four years, while that at Krishnarajapete was last inspected in 1910-11.

Letter No. 2816—296, dated 20th January 1914, from the Inspector-General of Police in Mysore, stating that some times objection is taken to the prosecution in criminal cases being conducted by Prosecuting Inspectors of Police as they are not appointed Public Prosecutors under Section 492, Criminal Procedure Code, and that convictions secured in Police cases are often reversed in appeal for want of proper representation in the appellate Courts as notices of appeal are not issued to the Police, and, therefore, requesting that Prosecuting Inspectors may be appointed Public Prosecutors and that notices of appeal may be ordered to be issued to them.

Order No. J. 2532-43—Police 145-13-4, dated 2nd February 1915.

Government are pleased to appoint, under Section 492, Criminal Procedure Code, all Prosecuting Inspectors of Police to be Public Prosecutors for all cases before the Courts of Magistrates.

Government are pleased to direct that notices of appeal under Section 422 of the Code of Criminal Procedure be given to the following officers:—

1. The District Superintendents of Police in appeals before District Magistrates and before Magistrates specially empowered to hear appeals.

2. The District Forest Officers in appeals against convictions for forest offences.

3. The District Excise Officers in appeals against convictions for breach of the Excise Laws.

Government consider that the existing practice of issuing notices in appeals before the Chief Court to the Government Advocate and to the District Magistrates concerned in appeals before the Courts of Session may be continued.

Letter No. C. 20, dated the 30th September 1914, from the Inspector-General of Police in Mysore, forwarding the Report on the Administration of the Police Department, for the year 1913-14.

Order No. J. 2915-25—Police 41-14-5, dated 26th February 1915.

Cognizable cases.—There was a slight increase of 139 in the number of cognizable offences during the year. Including the number of cases pending at the end of 1912-13, the police had to deal with 11,018 cases during the year. The percentage of cases ending in conviction to cases decided fell to 70·6 from 75·1 in the previous year, while the result of police work regarding the recovery of stolen property shows a slight improvement, the percentage of property recovered to property lost being 37·4, as against 34·6 in the preceding year.

Non-cognizable cases.—The Inspector-General states that a growing tendency has of late been observed on the part of Magistrates to refer, without proper discrimination, complaints to the police for investigation. The number of cases so referred and their final results are not given, and it cannot be judged to what extent this discretion vested in the magistracy is being abused. The Chief Court will be requested to take steps to check any such tendency that may be found to exist by requiring the Magistrates to examine complaints critically before referring them to the police.

Preventive action under the provisions of the Criminal Procedure Code.—Government are pleased to note that 186 persons were dealt with under Sections 109 and 110 of the Criminal Procedure Code, as against 59 persons in the preceding year.

Investigation by Amildars.—The Amildars are reported to have investigated only 67 cases. Government consider it desirable that they should take a larger part in the police work of their taluks, so that they may be able to keep themselves in full touch with it, and exercise an intelligent control.

General.—The Inspector-General's suggestion regarding the enactment of a law similar to the Indian Criminal Tribes Act is noted and will be considered in the Legislative Department.

The question of making adequate provision for police buildings is under consideration, and the needs of the department will be attended to as far as funds permit.

The suggestion of the Inspector-General regarding the strengthening of the police force and improving the prospects of its members is also engaging the attention of Government.

Government desire to express their thanks to the Inspector-General of Police, for the efficient administration of the department during the year, and they note with satisfaction the Inspector-General's commendation of the good work done by the officers of the department referred to in the last paragraph of his report.

Letter No. 144, dated the 21st January 1914, from the President of the Mysore City Municipal Council, received through the Deputy Commissioner of the Mysore District, requesting sanction to the holding of a Provincial Local Boards Conference under the auspices of the Mysore City Municipal Council.

2. The following extract from the Dewan's reply to the addresses presented to him by the Dasara Representative Assembly on the 30th September 1914.

"The suggestion by the representative of the Nanjangud Municipality that a Municipal Conference may be held periodically to discuss matters of Municipal interest appears to me to be a very wise one particularly when we are endeavouring in so many ways to develop town planning. We must look to the public spirit of the members of the various Municipal Councils of the Province to take the initiative in this respect."

Order No. 6624-74—Ml. 195-14-2, dated 25th February 1915.

The special Committee who are considering the question of the organisation and development of Local Self-Government in the State are also in favour of holding a Local Self-Government Conference once in two years and the Deputy Commissioners who were consulted in the matter during the Dasara of 1914 are agreeable to the proposal. Government also are of opinion that much benefit is likely to be derived by conferences of the kind proposed, as it would give selected representatives of District Boards and Municipal bodies an opportunity of exchanging views, regarding difficulties experienced in working out the provisions of the existing Regulations and Rules and the remedies to be devised. They will also be able to consider such subjects as the following:—

(*a*) The best methods of improving the administration and efficiency of local bodies and of augmenting their resources.
(*b*) Town planning and town extensions.
(*c*) Sanitary programmes.
(*d*) Water-supply construction and maintenance.
(*e*) Conservancy methods.
(*f*) Prevention of overcrowding, relief of congestion and housing of the population affected by these operations.
(*g*) Improvement of communications and extension of feeder railways, tramways, etc., by the agency of District Boards, and
(*h*) Other matters conducive to the comfort, convenience and safety of the public.

2. Government are pleased to approve of the holding of a conference of representatives of the local bodies during the ensuing Birthday festivities of His Highness the Maharaja under the management of the Mysore City Municipal Council. mile and daily batta of one rupee a day at Mysore for a period not exceeding five days including the days of arrival and departure.

4. The Deputy Commissioners and the President of the Bangalore City Municipal Council may, with the approval of Government, depute Vice-Presidents of the Municipal Councils at District Headquarters and of the District Boards to attend the Conference. The non-official Vice-Presidents thus deputed will draw travelling allowances on the same scale as that prescribed for delegates in para 3 above and official Vice-Presidents at the rates prescribed in the Mysore Service Regulations for journeys and halts on Government duty.

5. The accredited delegates of the local bodies referred to in para 2 *supra* will alone have the right to vote on the propositions placed before the conference. But the members of the Mysore City Municipal Council and other local bodies as well as the official representatives deputed to the Conference may take part in the proceedings of the Conference without the right to vote.

6. The exact dates on which the Conference will be held will be notified as early as practicable by the President of the Mysore City Municipal Council who shall, not later than the 1st April 1915, address the Municipal and local bodies by means of a circular letter (which should also be published in the *Mysore Gazette*) requesting their co-operation and intimation by the 25th April 1915, of the names of the delegates and the subjects which they propose to discuss. A Reception Committee will be formed by the Mysore City Municipal Council to see to the convenience of the delegates and non-official Vice-Presidents deputed under the orders of Government. Free house accommodation will be provided to these gentlemen, if desired.

7. All expenses to be incurred in this connection shall be borne from the funds of the Mysore City Municipal Council, Government contributing one-half thereof up to a limit of Rs. 500. Each of the other local bodies and Municipal Councils who may wish to take part in the Conference is hereby authorised to contribute at its discretion a sum not exceeding Rs. 50 towards the expenses of the Conference.

8. A list of subjects to be discussed will be prepared and issued by the President of the Mysore City Municipal Council at least three weeks before the date of the opening of the Conference. The list will include such subjects as the Municipal and local bodies or their representatives may suggest for discussion and other questions of general importance to be approved by Government. In the case of subjects suggested by the Municipal and local bodies, a brief note should be forwarded with each subject to facilitate discussion. Ten copies of the lists of the delegates with full address and summary of subjects to be discussed with brief notes thereon should be submitted direct to Government at least ten days prior to the date of the opening of the Conference. Officers of Government and other gentlemen may also read papers before the Conference on subjects connected with local self-government.

9. To obviate delay and inconvenience the printing of the lists of delegates, summary of subjects and other papers connected with the Conference, will be done at Government expense at the Mysore Branch Press. The Superintendent of the Government Press is requested to render the President of the Mysore City Municipal Council all necessary help in this connection.

Letter No. 1669, dated the 12th October 1914, from the Sanitary Commissioner, submitting the Report on Plague Administration in the Mysore State during the year 1913-14.

Order No. 6376—San. 76-14-3, dated 17th February 1915.

Attacks and deaths.—The Plague attacks and deaths during the year numbered 4,788 and 3,322 against 5,361 and 3,782 during the previous year. The figures were the lowest recorded in any year since the first outbreak of plague in the State except during the year 1905-06. The number of attacks and deaths per one thousand of population was 0·83 and 0·58 as against 0·93 and 0·66, respectively, in the previous year. The contribution of plague to total mortality was 3·38 per cent against 3·67 per cent in the year 1912-13.

Preventive measures.—As in previous years, the measures adopted to combat the disease were evacuation, disinfection and inoculation. The statistics furnished by the Sanitary Commissioner show that there was no case of mortality amongst the inoculated persons.

Plague Hospitals.—The number of recoveries to admissions in the Plague Hospitals of Bangalore and Mysore Cities shows that the treatment of patients therein was efficacious.

Expenditure.—The total expenditure incurred in connection with plague preventive measures during the year was Rs. 26,696 as against Rs. 26,063 in the year 1912-13.

Communications to Government.

No. G. 8530-78—G. M. 294-14-1, dated 10th February 1915.

GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE
GENERAL AND REVENUE SECRETARIAT.

CIRCULAR MEMORANDUM.

No. G. 8530-78 - G. M. 294-14-1, dated 10th February 1915.

Government have had occasion of late to notice several instances of communications addressed to them not being complete and not explaining clearly, as required by standing orders, the nature of the recommendations made and the rules or orders on which they are based.

2. The attention of all Heads of departments and Deputy Commissioners is invited to the marginally noted orders on the subject and some of the more important points requiring special attention are recapitulated below with a view to facilitate the speedy disposal of cases before Government :—

11610—315, dated 13th January 1891.
1108-17—Cir. 5, dated 16th April 1892.
551-8—Pet. F. 6-98, dated 20th July 1898.
2770-810—Edn. 1-07-13, dated 15th September 1908.
12161-511—Mi. 372-13-1, dated 11th June 1914.

(i) Each communication to Government should treat only of a single subject.

(ii) All proposals submitted to Government should be sent in a final and complete form after reference to all the departments concerned with full information on all points on which orders are required.

(iii) The standing order, precedent, code or rule, both for and against the recommendation, should be invariably quoted and in case the recommendation or proposal runs counter to an existing order, code or rule, or is not covered by precedent, etc., the grounds on which exceptional treatment is proposed should be clearly set forth.

(iv) Where the communication is lengthy, the recommendations made and the orders sought, should be recapitulated towards the end of the letter.

(v) Where sanction is sought for expenditure, the financial effect of the recommendation should be pointed out and it should be explained whether the expenditure is provided for in the budget or can be met by reappropriation of sanctioned grants or whether the sanction is intended to operate in the next year.

RULES FOR THE RECEIPT AND DISPOSAL OF PETITIONS.

1. Nothing contained in these rules will affect the procedure, if any, prescribed by law or by competent authority for any special classes of petitions.

2. Every petition must be written on the three pie petition paper prescribed for the purpose or at any rate on durable stout paper of that size, leaving a quarter margin blank on the left hand side. The court fee stamp, if any, should not be affixed on the left hand quarter margin.

3. Every petition must be complete in itself and refer to a single subject. It should contain all material facts and arguments relied on by the petitioner. All documents in the possession of the party necessary for its disposal or copies thereof should accompany the petition. Appeal petitions should be accompanied by authenticated copies of the orders appealed against or endorsements issued to the party.

4. Every petition must be legibly written and as concisely as the nature of the case admits of. It should not be unnecessarily prolix, or couched in unintelligible, exaggerated or disrespectful terms.

5. Petitions should conform to the stamp law, if any, applicable to the matter to which they relate.

6. Petitions not addressed to the lowest authority competent to grant the relief prayed for will be referred to such authority, and the fact intimated to the party.

7. Petitions from persons in the service of Government relating to any matter affecting their official position should be forwarded only through their official superiors.

8. When a petition is not drawn up or presented in conformity to the preceding rules, it will be returned with an endorsement specifically pointing out which of the rules have been infringed.

9. Petitions may be presented in person or posted to the address of the officer or placed in a box provided for the purpose in each office. Petitions by telegraph will not generally be attended to.

10. If the party desires an acknowledgment of the receipt of his petition, he may annex thereto a receipt with a court fee stamp of one anna affixed thereon, and the said receipt will be returned to him signed by the officer to whom the petition is presented or by some authorised agent of his office.

11. In respect of every petition conforming to these rules and presented in person or sent by post, a full endorsement in writing should be given embodying the final orders.

12. When orders cannot be passed on the day a petition is personally presented, the applicant should at once be informed of the probable time within which orders will be passed. He must not be kept waiting at the office for orders. When petitions otherwise received are not disposed of in a week, an acknowledgment should be sent by post to the petitioner, informing him when final disposal may be expected.

13. Petitions should not be referred to subordinate officers for report unless there is a real necessity ; and when reports are required, the points on which information is wanted should be clearly indicated.

14. Copies of orders passed on petitions should, as far as possible, be delivered to petitioners in person by the officer passing the order, the date of delivery being noted in the order. Where this is not practicable, the order should be sent in duplicate to the subordinate officer, who will deliver one copy to the parties concerned and note on the other the actual date of delivery under his signature.

No. G. 8721-70—U A, 33-14-1, dated 11th February 1915.

15. Every petitioner should be informed of the final order on his petition direct from the office to which the petition was presented and not referred to any subordinate office for an answer to his petition, except in cases covered by Rule 6.

16. After the passing of a final order, no notice will be taken of a second petition on the same subject, unless new matter requiring special consideration be introduced.

17. Petitions should be received daily at a fixed hour during office hours by the officer himself and not by the clerks. He should keep to that hour as far as the exigencies of business will permit.

18. A notice informing the public of the hours between which petitions should be presented should be affixed to a notice board outside the office

19. When a petition is sent for explanation or report to a subordinate officer, a reply should be despatched within ten days after its receipt if the required information can be obtained from the records But if it is necessary to investigate the matters referred to in the petition by the examination of individuals or by reference to subordinate officers at a distance, the report should be sent as early as practicable within a month. If a longer time is absolutely necessary, an *ad interim* report should be submitted and further time obtained.

20. In all offices where the average number of petitions received in a year exceeds fifty, a separate register should be maintained for entering petitions. But copy applications, darkhasts and other kinds of petitions for which special registers are maintained need not be entered in the petition register also.

21. Below the entry of each petition sufficient space should be left for entering reminder petitions, if any should be received

22. The register should be in the form appended below :—

1	2	3	4	5	6
Number	Date of receipt	Petitioner's name and place of residence	Purport of petition	Notes of action taken	Date and order of disposal in brief

Note.—In column 5 should be entered briefly every step in the progress of the case, including references, if any, made upon the petition to other offices and the replies received therefrom

23. An Alphabetical Index of places and persons should be attached to the register and written up from time to time.

24. Every officer who receives on the average more than fifty petitions a year should submit to the authority to whom he is immediately subordinate a quarterly return in the following form. Explanations for all cases pending over six months should be appended.

1. Pending from last quarter.
2. Received during the quarter.
3. Disposed of finally.
4. Pending at end of quarter.—
   (*a*) Number pending personal enquiry.
   (*b*) Number pending with subordinate officers or other departments.
   (*c*) Reported on to Higher Officers and pending replies.
   (*d*) Number pending more than three months.

Recorded.

2. Though operations were somewhat handicapped by the drought which was an outstanding feature of the year under report, the general maintenance of the Lal-Bagh, the Cubbon Park and the other Government Gardens at Mysore and Seringapatam continued to be satisfactory; and the experimental cultivation of Exotics in the Sunnakal Tank Farm made some progress.

3. The report is interesting, and records, on the whole, a fairly good year's work under conditions not altogether favourable to horticultural activities. But the delay of more than two months in submitting the same should have been avoided.

Administration Report of the Railway Department for 1913-14.

No. G. 9400—G. M. 208-14-4, DATED 27TH FEBRUARY 1915.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

The Report on the Administration of the Railway Department during the year 1913-14, received from the Secretary for Railways, with his letter No. 818, dated 13th October 1914.

Order No. G. 9400—G. M. 208-14-4, dated 27th February 1915.

Recorded.

2. Mr. E. A. S. Bell, F.C.H., M.I.C.E., Engineer-in-Chief and Secretary for Railways, was in charge of the department during the year till 21st April 1914. Mr. K. Krishna Iyengar, B.A., L.C.E., Deputy Chief Engineer, officiated for Mr. Bell from the date mentioned to the end of the official year.

Mileage of Open Lines.

3. The length of open lines owned by the State remained stationary being 411·17 miles as in previous year. The Madras and Southern Mahratta Railway Company continue to work them.

Results of Working.

4. A capital outlay of Rs. 4,76,800 was incurred during the year, bringing the total expenditure on the lines to the end of June 1914, to Rs. 2,57,77,506.

The gross earnings during the year amounted to Rs. 39,19,031, showing an increase of Rs. 1,97,357 over those of the previous year. The working expenses were also greater being Rs. 22,37,319 against Rs. 20,03,191 in the previous year. The net earnings after deducting a sum of Rs. 1,262 outstanding at the end of the year amounted to Rs. 16,80,450, being less than those of the previous year by Rs. 38,452.

The working expenses came up to 57·08 per cent of the gross earnings, and the net earnings represented a return of 6·52 per cent on the capital outlay.

The net gain to the State after deducting from the net earnings the share payable to the working agency and interest was Rs. 5,76,288 during the year.

The Secretary for Railways is requested to devote a paragraph in future reports to indicate the net result of the system, as a whole, from its commencement after taking into consideration all losses and interest charges.

Aided Lines.

5. The Kolar-Bowringpet Light Railway constructed by the District Board of Kolar, at a cost of Rs. 3,06,939 to the end of June 1914, was opened for traffic on 15th December 1913. The line which is 10·92 miles in length is worked by State Agency, due provision being made to safeguard the District Board against loss that might be caused by the working of a small section. The earnings compare very favourably with the earnings from the State metre gauge branch lines during the first few years after opening; and resulted in a net gain of Rs. 1,068 during the year.

Construction of New Lines.

6. Satisfactory progress was made in the construction work of the Mysore-Arsikere Metre Gauge Railway, which was started in October 1913. Ten and nine miles of plate-laying on the Tarikere-Yedahalli Tramway and the Bangalore-Chikballapur Light Railway, respectively, were also completed during the year. The total expenditure during the year on both State and aided lines amounted to Rs. 14,83,599.

Surveys and Investigation of New Projects.

7. These received due attention and it is reported that projects are ready for the following lines,—(1) the Kolar-Chikballapur Light Railway, the construction of which has since been sanctioned by the Government, (2) the Bangalore-Hosur Light Railway, (3) the Kadur-Chikmagalur Metre Gauge Railway, (4) Chikmagalur-Hassan Light Railway.

The project in the second of the two cases is under correspondence with the South Indian Railway Company and the third and fourth are under the consideration of Government. The question of the construction of two other lines, *viz.*, Hassan-Mangalore Railway and Nanjangud-Erode Railway, is under correspondence with the Government of India.

General.

8. It is reported that owing to the non-settlement of the question of financing the Chikjajur-Chitaldrug Railway, and the non-receipt of sanction in time to the commencement of construction work on the Kolar-Chikballapur and Bangalore-Hosur lines, a large portion of the budget grants intended for these lines had to be surrendered. But taking the circumstances as a whole, the preparations and progress may be deemed satisfactory.

9. Government are pleased to record their appreciation of the able and efficient manner in which the department was administered by Mr. Bell.

Order thereon—No. G. 8445-93—G. M. 292-14-1, dated Bangalore, 9th February 1915.

ORIGIN AND OBJECT OF THE DEPARTMENT.

The Geological Department was organized in 1894, at the instance of Sir K. Sheshadri Iyer, mainly with the object of carrying out a complete geological survey of the State, and publishing geological maps and bulletins and of training a number of young men as qualified geologists and mining engineers. The supervision of the gold mines, the formation of a museum, the organization of a laboratory were among the other objects Government had in view in bringing the department into existence. In 1898 the work of inspecting explosives was also added.

WORK ACTUALLY DONE.

2. The progress made up to date in the several branches of work has been indicated in the notes of the Secretary referred to in the preamble. It may be briefly summarised as follows:—

3. About 18,000 square miles out of a total area of 29,461 have been surveyed, but the earlier portions of the work stand in need of revision in the light of the experience which has been subsequently acquired. The results of the survey have been published in the shape of reports and maps, besides memoirs, bulletins and notes on special subjects issued from time to time.

No. G. 8445-93– G. M. 292-14-1, dated 9th February 1915.

4. The inspection of mines is now systematically done by two expert European Officers assisted by a locally trained Indian Assistant.

5. The inspection of explosives has been systematised and a whole-time officer placed in charge.

6. Owing to the growth of miscellaneous duties and the want of a suitably trained staff in the earlier years, the department has not been able to devote adequate attention to the systematic performance of some of the functions assigned to it in the original order.

7. As the programme laid down in 1894 was itself a tentative one, it is now necessary to revise the plan of work for the future in the light of the experience since gained.

FUTURE WORK AND DEVELOPMENTS.

8. If the State is to derive full benefit from the operations of the department, the work should be conducted with an eye to definite results. In this view Government consider that the operations of the department should fall under four main heads, as under:—

(1) Geological survey and exploration.
(2) Inspection of mines and explosives.
(3) Production of minerals and development of metallurgical industries on a commercial scale.
(4) Training of Geologists, mining engineers and prospectors.

(1) Geological Survey.

9. A general knowledge of the geological structure of the country having now been obtained as the result of the survey work already conducted, Government consider that in future attention should be devoted mainly to problems and investigations which have a direct bearing on the economic resources of the State. The aim should be to discover tracts likely to yield mineral deposits and ores of commercial value and to this end, a geological map with special reference to the economic resources of the State should be prepared and a brief bulletin, not exceeding 60 pages, giving an account of the mineral resources and metallurgical possibilities should be published, both in English and Kannada, within the next six months. Further bulletins and maps should be prepared also in the order of their importance from an economic point of view. The Geological laboratory should afford facilities to the public for assay and analysis of minerals and, in this connection, there should be an enquiry office at which *bona fide* enquirers from within the State may obtain correct information promptly.

10. The development of the museum should be taken in hand and facilities should be created in the library to enable the public to obtain access to the publications of the department on payment of a small prescribed fee.

11. A small bulletin should be compiled both in English and Kannada for the benefit of the public, giving an account of the important rules and conditions under which mining and other leases are granted by Government.

(2) Inspecion of Mines and Explosives.

12. Government consider that it is no longer necessary that the State Geologist should devote much personal attention to the work of inspection of mines as there is a staff of two qualified European officers and one Indian Assistant for this purpose. It will be sufficient if he retains a general responsibility for the work and devotes to it in the aggregate three to four weeks' time in a year. Similarly, the work of inspection of explosives may be left mainly in the hands of the Inspector concerned.

(3) Mineral Production and Metallurgical Industries.

13. This is a branch of work which has not received adequate attention in the past and to which henceforward the department will be expected to devote special and very early attention. The Secretary has clearly indicated the amount of work already accomplished in regard to various minerals found in the State. In future greater attention should be given to the production and manufacture of special metals, such as, pig iron and steel, ferro-manganese, ferro-chrome, etc. The

No. G. 8145-93-G. M. 292-14-1, DATED 9TH FEBRUARY 1915.

question of iron smelting is one of special urgency. The localities and quantities available of other mineral products of economic value, such as, lime, clay, etc., should be explored and the results specifically recorded. The department should also endeavour to work in association with the Director of Industries and Commerce, the Mechanical Engineering section of the Public Works Department, and the Deputy Commissioners of Districts, with a view to enlist capital and enterprise in the production and exploitation of minerals and metals. A sufficient number of prospectors should be in training to meet the needs of the department and to assist private capitalists in prospecting work.

14. A selected special officer should be placed in charge of this branch of the department.

15. Government will be prepared to provide additional funds as the work of the branch develops.

(4) TRAINING OF GEOLOGISTS, MINING ENGINEERS AND PROSPECTORS.

16. The next important work of the department is to train a sufficient number of young men of the State as geologists, prospectors and mining engineers. For this purpose applications may be called for from graduates and six candidates selected, the first four in the order of merit and the other two on the principle of giving due representation to communities. These graduates should be given training in metallurgical work including practice in smelting operations and reduction of ores. Some of them should be sent to private iron works in India for receiving instruction in blast furnace smelting and steel-making. Instruction in mining chemistry should be given in the departmental laboratory and in mining mechanics in the Mechanical Engineering School. Practical work in mining should be arranged for on the Gold Fields in consultation with the mining authorities. After a year's training, two of the more promising candidates may be deputed to Europe for higher training in mining and metallurgical work. During their period of apprenticeship in India the candidates may be paid a stipend of Rs. 75 per mensem. These men will be available to fill vacancies as they arise in the department, to aid private people in mining enterprise and, if necessary, their services may also be utilised in the Department of Industries and Commerce.

17. The question of starting a Mining School on the Kolar Gold Fields to train artisans and foremen for mining work should be considered in consultation with the Education Department and the mining companies.

RE-ORGANIZATION OF THE STAFF.

18. To carry on the work as sketched above, Government are of opinion that a re-organization of the department is necessary and that some relief should be given to the head of the department by transferring a portion of his present work to subordinate officers. Government are accordingly pleased to sanction the following arrangements:—

(1) The department will, in future, be called the "Department of Mines and Geology," and as Dr. Smeeth has presided over it with credit for over fifteen years, Government are pleased to direct that the designation of his office be changed into "Director, Department of Mines and Geology."

(2) The salary of Dr. Smeeth as Director will be Rs. 1,800 as hitherto and he will, in future, be given a personal allowance of Rs. 200 per mensem.

(3) Promotions from class to class and increments in each class among officers of the department will depend entirely on merit and efficiency and should in each case be sanctioned by Government.

(4) The appointment of two graduates in Chemistry on probation for one year in the first instance as Laboratory Assistant on a salary of Rs. 70—10—100 is sanctioned.

(5) All new appointments to the scale herein sanctioned shall be made in future on the results of a competitive examination. Applications should be publicly invited through the Education Department.

No. G. 8445-93—G. M. 292-14-1, DATED 9TH FEBRUARY 1915.

(6) The sanctioned scale of the department and the position and prospects of the officers will be as under :—

19. The work of the Geological Secretariat should be transferred to the Secretary to Government, General and Revenue Departments. The State Geologist will, however, continue to assist Government in furnishing draft rules and notifications in all important matters requiring technical knowledge. This division of work will enable the State Geologist and his Assistants to devote greater attention to the more important and legitimate work of the department detailed in paragraphs 8 to 17 *supra*.

20. As the Secretariat work will be transferred to the Secretary, General and Revenue Departments, there is no need for retaining in the Geological office a highly paid officer like the Registrar. Mr. B. Subba Rao will accordingly be transferred to the General and Revenue Secretariat as Assistant Secretary to Government on a pay of Rs. 300 in the 300—$\frac{50}{3}$—450 grade, but without any special Secretariat allowance. The State Geologist may submit proposals for the appointment of a suitable ministerial officer in his place on a salary not exceeding Rs. 150.

CONCLUDING SUGGESTIONS AND ORDERS.

21. The State Geologist is requested to submit for the sanction of Government revised programmes of work under each of the four divisions indicated above for the next ten years together with a statement of the allocation of the staff to the respective branches.

22. For the selection of six apprentices and the appointment of two chemists referred to in paragraphs 16 and 18 (4), respectively, applications should be invited through the Inspector-General of Education from graduates belonging to the State who have taken degrees within the past three or four years. The candidates should be put through appropriate tests and the names sent up arranged in the order of merit with the recommendation of the State Geologist and the Inspector-General of Education for final selection by Government.

No. G. 8445-93—G. M. 292-14-1, DATED 9TH FEBRUARY 1915.

23. The State Geologist is also requested to submit suitable subsidiary proposals for the transfer of the Secretariat work to the Secretary to Government, General and Revenue Departments, and for giving effect generally to the several changes sanctioned in this order.

24. All the arrangements sanctioned should take effect from 1st March 1915.

Government Order No. 9547-8—Edn. 275-04 and 10254-6—Edn. 86-05, dated 13th April 1905 and 2nd April 1906, respectively, sanctioning the award of scholarships to female pupils.

2. Letter dated 15th April 1914, from the Inspector-General of Education, submitting proposals for increasing the number and scope of the scholarships to girls for primary education, together with a set of draft rules regulating the grant of such scholarships.

Order No. 2784-85—Edn. 439-13-2, dated 9th February 1915.

Government have sanctioned from time to time the grant of special scholarships to foster the growth of female education in the State. Nevertheless, they observe that though there is not at present the same reluctance as was usual some years ago to send girls to schools, very few persons even in the cities take the education of girls seriously. It is therefore necessary to offer some further encouragement to induce parents to see to the better education of their girls.

Orders have been passed recently regarding the improvement of female education in the State in the collegiate and secondary grades, and in that connection an amount of Rs. 600 per annum has been provided for scholarships of a value not exceeding Rs. 3 or Rs. 4 each per mensem to be granted to girls in the primary classes of the Maharani's College.

With a view to encourage the education of girls in the primary and secondary schools, Government are pleased to sanction the following additional facilities in this behalf, tentatively for a period of two years:—

(i) A grant of Rs. 7,200 per annum for awarding scholarships to girls in the primary and lower secondary classes of Vernacular public schools, and in all the classes of public Anglo-Vernacular schools up to the III Form.

(ii) A supplemental grant of Rs. 2,000 per annum for giving prizes to deserving pupils in the shape of school requisites such as books, slates, etc.

A third of the aforesaid grant for scholarships, *i.e.*, a sum of Rs. 2,400 per annum, will be set apart for the encouragement of such classes of people as have not hitherto availed themselves of the existing facilities for female education. The grants for the scholarships and prizes now sanctioned will not apply to the Maharani's College for which a separate provision has been already sanctioned.

The award of the scholarships and the grant of prizes will be regulated by the rules printed as an appendix to this order.

The Inspector-General of Education is requested to point out the source from which the charge during the current year may be met, and to submit a report on the working of this scheme at the end of two years. The scholarships and prizes should be distributed between the different districts and taluks as fairly as possible and a copy of the distribution list submitted for information to Government.

APPENDIX.

Rules for the Award of Government Scholarships to Girls reading in the Primary and Lower Secondary Classes of Public Institutions in Mysore.

1. Applications for scholarships will be made to the Head Master or Mistress or Manager of the schools in which applicants are pupils. The Head Master or Mistress or Manager will, with the approval of the School Committee, recommend in the month of March as many of the applicants as are considered to be deserving of scholarships, to the District Inspector of Education who will submit a consolidated list of candidates for scholarships to the Inspector-General of Education through the Circle Inspector of Education early in April of each school year.

2. The scholarships will be tenable for the school year from the beginning of May to the end of April.

3. The list of scholarship-holders will be revised by the Inspector-General of Education at the beginning of each academical year. The Circle Inspector is also empowered to fill up any vacancy that may occur during the year.

4. The scale of scholarships will be as follows:—

100 scholarships of Rs. 2 each per mensem .... Rs. 200
To be granted to girls reading in all Anglo-Vernacular classes, and Vernacular classes from the III class upwards.

200 scholarships of Re. 1 each per mensem .... Rs. 200
To be awarded to girls of the II Vernacular class.

400 monthly scholarships of 8 annas each per mensem .... Rs. 200
To be awarded to girls of the I Vernacular class.

5. In the award of scholarships, preference will be given to girls who attend the school regularly and punctually and show good progress in their class work. In small places, the attendance of girls in Boys' Schools may also be encouraged in Class I and upwards by the award of scholarships and prizes. When all the available scholarships are not utilised in the classes for which they are intended, it is left to the discretion of the Inspector-General to transfer them to other classes.

6. The decision of the Inspector-General of Education regarding the award of scholarships shall be final.

7. During the year of tenure, the Head Master or Mistress or Manager of a school in which the girl is reading may, in consultation with the School Committee, withhold the whole or any portion of her scholarship for irregular attendance, unsatisfactory progress or bad conduct, reporting the fact at once to the District Inspector of Education, who will send a consolidated list to the Inspector-General of Education at the beginning of every succeeding month.

8. In accordance with the needs of various Girls' Schools in the State, the Inspector-General of Education is authorized to utilize the annual allotment of Rs. 2,000 for giving prizes in the shape of books, slates and other school requisites to poor and diligent girls reading in English and Vernacular I and higher classes.

Government Order No. 414-26—Edn. 152-13, dated 10th July 1914, sanctioning the reorganisation of the Maharani's College, Mysore, and revising the scale of establishment of the Girls' School at district headquarters.

2. Correspondence ending with letter No. 7460-316, dated 3rd November 1914, from the Inspector-General of Education in Mysore, submitting his proposals for allocating the staff of the Maharani's College according to the revised scale and proposing that Sri K. D. Rukminiamma may be designated as Assistant Lady Superintendent of the Maharani's College.

Order No. 2854-5—Edn. 61-14-5, dated 15th February 1915.

Government consider it necessary to appoint an Assistant Superintendent for the Maharani's College, and are accordingly pleased to direct that the senior assistant of the College be henceforth designated as Assistant Superintendent. This will not, however, give the incumbent claim to a higher salary. The Lady Superintendent's designation will also be henceforth changed to Superintendent. With this modification, the proposals of the Inspector-General are sanctioned. The allocation of the staff in the new grades, as sanctioned and approved by the Government, is shown in the appended list.

2. This order will have effect from 10th July 1914.

3. As there are some officers included in Government Order No. 1261-2—Edn. 407-13-11, dated 11th November 1914, who are shown in the appended statement also, the Inspector-General should submit proposals for the final allocation of these officers in one or other of the sections at a very early date.

Order No. 2826-30—A. & I. 166-14-1, dated Bangalore, 13th February 1915.

Government have requested Mr. C. P. Perin, the expert who has come out to India to advise in reference to the Sakchi Iron and Steel Works, to investigate the mineral resources of the Mysore State, chiefly iron and manganese, and to advise Government as to what industries connected with mining and metal production are likely to be commercially feasible and may be started with advantage.

2. The period of special duty will be about a fortnight and during this period Mr. Perin will work in consultation with Mr. Chatterton, Director of Industries, Dr. Smeeth, State Geologist, and Mr. M. G. Rama Rao, Officiating Conservator of Forests. These Officers are requested to meet him on arrival and give him all necessary help and information to enable him to form a correct estimate of the resources of the State.

3. The following officers, one from each of the three departments concerned will be deputed to work under Mr. Perin during the time he is engaged on his special duty.

(1) Mr. B. Jayaram or Mr. P. Sampathiengar of the Geological Department.

(2) Mr. S. Raghavendra Rao, Superintendent of Industries.

(3) Mr. G. Krishnamurti Naidu, Assistant Conservator of Forests.

The Heads of Departments are requested to relieve these officers and direct them to report themselves to Mr. Perin for duty in Bangalore on the 26th February 1915.

4. During the period of his special duty Mr. Perin will receive a fee of Rs. 500 per day in addition to actual out-of-pocket expenses incurred for the journey from Sakchi to Bangalore and back to Sakchi or Bombay. A lumpsum of Rs. 1,000 will also be paid to him towards the share of the cost of the voyage from America out to India and back.

5. The expenditure will be charged to the Geological Budget and met from the provision of Rs. 3,000 made therein for expert services, supplemented to the required extent by a transfer of funds from the lumpsum grant of Rs. 31,000 in the budget of the Economic Conference.

6. Mr. Perin is expected to arrive in Bangalore on the evening of 25th February and be ready for work on the morning of the 26th idem.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

DEPARTMENTS OF EDUCATION AND AGRICULTURE.

Read—

Government Order No. R. 6058-6107—L. R. 43A-13-1, dated the 6th February 1914, sanctioning a scheme of Village Improvements in Mysore, and requesting the Revenue Commissioner to submit a consolidated return of certain statistics for the State.

2. Letter No. 5889, dated the 20th November 1914, from the Revenue Commissioner in Mysore, submitting the consolidated return for 1913-14.

Order No. 2926-2975—A. & I. 81-14-2, dated 18th February 1915.

Recorded.

2. The statistics deal with 16,985 villages, while the total number of villages in the State is 19,537, of which 16,740 are inhabited and the rest *bechirak* or uninhabited.

3. The total population of the villages included in the return is 4,713,329. According to the Census of 1911, the total population of the State (excluding the Civil and Military Station) was 5,705,359, consisting of an urban population of 658,329 living in 90 towns and a rural population of 5,047,030 living in 16,740 villages. In the return 236,194 persons are shown as literate, which is only 5·01 per cent, against a percentage of 5·3 according to the census figures for the entire State.

It is difficult to explain these differences in the absence of detailed information as to what localities have not been included in the return. It is presumed that besides the urban areas some of the rural areas have also been excluded. The necessarily imperfect agencies and methods of collection and compilation are also perhaps responsible for a large margin of error. In future years, the localities left out of the return, and the reason for their exclusion should be clearly specified.

4. The number of births exceeded that of deaths in all the districts, except in the malnad districts of Hassan, Kadur and Shimoga. The death rate works out to 18·7 per mille and the birth rate to 21·25 per mille. Both these figures are obviously much below the actuals and the registration of vital statistics stands in need of better organisation to secure greater accuracy. The question is under the consideration of Government separately. The depopulation of the malnad has attracted attention for sometime past, and a special agency has been organised to improve sanitation and take other remedial measures.

5. The total number of schools included in the return is 4,494, while that in the whole State according to the report of the Education Department is 4,568. The total number of persons under instruction is returned as 134,059 or 2·84 per cent of the population.

6. The number of reading rooms and similar institutions is 165. But as the total number of villages in which the villagers have agreed to devote one evening for spreading information and similar purposes is given as 2,143; there is a great scope for a large increase in the number of such institutions during the current year.

7. *Occupations.*—Agriculture is the most important occupation, about 815 persons out of every 1,000 of the population being engaged in it. Manual labour comes next with 90 per 1,000, while trade supports 25 per thousand of the population. Handicrafts, like weaving pottery, carpentry, and smithy employ 31 per 1,000 of the population, sericulture maintains 14 per 10,000 and the other occupations the

remainder. Despite differences of classification, it is interesting to note that the omission of urban areas from the return gives a higher proportion of persons engaged in agriculture and a lower proportion of those engaged in trade and industries than the figures given in the Census Report, *viz.*, 724 per 1,000 for agriculture and 40·6 for trade and 76 for industrial occupations. The proportion of workers to dependants is as 60 to 40 according to the return, as against 40 to 60 according to the Census returns for all occupations and 27 to 73 for the class of occupations, of which agriculture is the most important. The wide variation in the figures can only be due to differences in the criteria of classification.

Crops.

8. The following table gives the area and outturn of the various crops arranged in order of gross outturn :—

No.	Name of crop	Area	Value of gross outturn	Value of outturn per acre	Order according to outturn per acre
1	2	3	4	5	6
		Acres	Rs.	Rs.	Rs.
1	Ragi	21,15,138	267,21,777	12 56	7
2	Paddy	7,16,995	187,06,580	26·80	5
3	Coffee and cardamoms	1,00,377	85,02,688	84 70	2
4	Cocoanut and supari	1,06,589	70,17,839	65 81	3
5	Jola	6,20,6·8	65,26,198	10 51	9
6	Horse gram and pulses	9,01,113	63,92,909	7 09	11
7	Sugar-cane	12,893	11,90,713	97·70	1
8	Other crops	5,65,336	11,87,517	2·10	10
9	Oil-seeds	2,52,562	28,14,725	11·22	8
10	Cotton	1,10,311	14,01,366	12·70	6
11	Mulberry	14,506	1,57,494	31·53	4
	Total	55,54,139	8,69,70,067	15 65	...

It is not possible to say how far these estimates of production can be regarded as accurate or complete. The figures worked out in the last two columns of the above statement, however, give some interesting indications which are more or less in consonance with conclusions that can be drawn from general considerations.

9. *Industrial output.*—The total industrial output is estimated at nearly 31½ lakhs, to which weaving contributes 14·23 lakhs, silk-worm rearing and reeling 3·03 lakhs and other industries 12·25 lakhs. The figure given for silk-worm rearing and reeling appears to be very low, and it is not very clear on what basis it has been arrived at. One reason may be the exclusion of certain urban areas where the industry is largely carried on. Taking the value of the agricultural and the industrial output as given in the return, the total value amounts to Rs. 9,00,98,689 or Rs. 19·115 per head of population.

Out of 951,635 families, 56,068 families, *i.e.*, one in every seventeen, carry on subsidiary occupations in addition to agriculture and 68,274 families or 1 in every 14 can maintain themselves from their savings during two successive years of distress.

10. *General.*—In 2,143 villages, or nearly in 1 in every 8 villages, one evening a week is reported to have been devoted to spreading information by reading newspapers, etc., and in 6,948 villages or in 2 villages out of every 5, the people have undertaken to devote half a day once a week for works of village improvement. On the whole, 4,276½ days of work have thus been put in. The total value of village improvement works executed with Government aid amounts to Rs. 4,40,701. 1,430 people have executed religious and charitable works in villages of an aggregate value of Rs. 9,12,197, but obviously the figures do not refer to work done during the past year alone.

11. This is the first return of village statistics obtained under Village Improvement Scheme. The figures collected by the Village Committees and officials under the various heads may not be accurate. To verify and check all the information supplied in the return will take considerable time. The abstract figures are therefore printed as they are received. The statistics, rough as they are, are of

some value, as they bring to notice several interesting features concerning the economic condition of the people. It is hoped that the return for the next year will be more accurate and in 2 or 3 years more, it will be made sufficiently correct for all practical purposes.

12. The District Officers concerned should be good enough to study the details with a view to render the figures as correct as possible in future years.

13. The Revenue Commissioner and the Deputy Commissioners of Districts will be consulted and specific orders will issue separately before the end of April if any improvement or modifications in the prescribed form are necessary.

Administrative Divisions in the Agriculture Department.

No. 3110-158—Agri. 126-13-7, dated 27th February 1915.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

DEPARTMENTS OF EDUCATION AND AGRICULTURE.

Read—

Letter No. 2773, dated the 15th April 1914, from the Director of Agriculture in Mysore, regaring the distribution of work of the Agricultural Section of the Department between the Deputy and the Assistant Directors of Agriculture.

2. Unofficial note by the Director, dated 26th September 1914, on the same subject.

Order No. 3110-158—Agri. 126-13-7, dated 27th February 1915.

With a view to ensure prompt and efficient conduct of business, the Director proposes:—

(1) to divide the work of the Agricultural Section of the Department between the Deputy Director and Assistant Director, the former being placed in charge of the Districts of Bangalore, Kolar, Tumkur and Mysore (to be called the Eastern Division) with Bangalore as his headquarters, and the latter officer in charge of the other four Districts (to be called the Western Division) with headquarters at Shimoga;

(2) to provide each of the two officers with an establishment of two clerks and two peons in addition to the requisite number of Agricultural Inspectors, of whom one clerk, two peons and the required number of Agricultural Inspectors will be detailed from the staff sanctioned for the reorganisation of the Agricultural Department and one clerk will be newly entertained on Rs. 15 for each, and;

(3) to incur an expenditure of Rs. 30 per mensem for renting out a building in Shimoga for the office of the Assistant Director.

He further suggests that a permanent advance of Rs. 200 may be placed at the disposal of each of these officers to enable them to meet the contingent expenditure of themselves and their subordinates and that they may be authorised to sign the bills for their salaries, travelling expenses and contingent charges of their respective establishment to be cashed at the treasuries subject to the usual account rules.

Government are pleased to sanction the proposals tentatively for a period of two years, with the observation that no addition will be sanctioned to the recurring expenditure beyond the sum of Rs. 60 per mensem, for the two clerks to be newly appointed, and for house rent.

The Director is requested to see that routine correspondence between himself and these officers is kept at a minimum. He should arrange for the preparation of a programme of work to be entrusted to each of them before the beginning of each half-year, and for its comparison at the end of that period with the work actually accomplished. The programme should include both the regular duties of the Department and also any specific schemes and experiments under continuous investigation.

The annual report of the Department should in future make special reference to the results achieved and improvements effected in each District in consequence of the activities of the Department.

(1) Government Notification No. 772—5275, dated the 29th June 1912, publishing revised rules for the regulation of water supply from the Chamarajendra Water Works.

(2) Government Order No. 1453-91—9150-88, dated the 13th November 1912, passing orders in the matter of the initial cost and excess water charges connected with water supply to public, charitable or religious institutions.

(3) Letter No. 144, dated the 16th November 1914, from the Honorary President, City Municipal Council, Bangalore.

Order No. 309-46—1663-700, dated 20th February 1915.

The case relates to the question of free allowance of water to religious and charitable institutions in the Bangalore City, such as temples, mosques, churches, chattrams, etc.

2. According to the rules now in force, these institutions are entitled to a free supply of water fixed on the basis of the rental value of the building in which they are located; and water drawn over and above the quantity thus fixed is charged for at 12 annas per 1,000 gallons, as in the case of dwelling houses.

3. A few months ago, the leading Hindu and Mahomedan residents of the City represented that the rate at which free allowance of water is now calculated, *viz.*, 160 gallons per rupee of the rental value, often fell short of the supply required to meet the ordinary needs of temples, chattrams and mosques, that they were unable to bear the charges for excess water consumed and that the institutions should be allowed to draw the full quantity of water needed by them free of all charges.

4. These representations were fully considered in the Public Works Department. The President of the City Municipal Council forwarded a list showing the free allowance now granted to each of these institutions and the allowance recommended as reasonably necessary for meeting their normal requirements. While recommending that the free allowance to each institution be revised according to this list, the Chief Engineer states that 15 per cent may be added to the quantity recommended by the President so as to meet future contingencies, and that any excess over this enhanced free allowance might be charged for at 12 annas per 1,000 gallons.

5. The free allowances now granted to these institutions are the highest that may be accepted having regard to the cost of maintaining the water works and other circumstances. But in view, however, of the strong representation made by the public, which receives support from the President of the Bangalore City Municipality, and in consideration of the actual average consumption of water in these institutions, Government are pleased to sanction the free allowances according to the list hereto attached. Any excess over the free allowance now sanctioned should be charged for at 12 annas per 1,000 gallons.

6. This order will take effect from 1st July 1914, and any charges due prior to that date should be recovered from the institutions concerned.

(2) Letter No. 479, dated the 26th August 1914, from the Superintending Engineer, Cauvery Reservoir Works.

Order No. 395-433—P. W. 1941-1979, dated 27th February 1915.

In the Government Order read above, the marginally noted establishment was sanctioned for the development and expansion of sugar-cane cultivation below the Cauvery Reservoir, to work under the Executive Engineer, Irrigation Division. It was subsequently thought expedient to entrust the work to the Superintending Engineer, Cauvery Reservoir Works, and instructions were issued accordingly. The Superintending Engineer has now submitted, for sanction, a revised statement of establishment, as shown below, which includes a draftsman and a clerk, and 2 peons on Rs. 8 each, in addition :—

Order No. 1803-7—Ry. F. 7. O. L. 14-15, dated 22nd February 5191.

The following arrangements proposed by the Secretary for Railways in connection with the Bangalore-Chikballapur Light Railway and the Tarikere-Yedahalli Tramway opened for goods traffic are sanctioned with effect from 1st January 1915:—

(i) to hold the authorization rolls for the working of the Bangalore-Chikballapur Light Railway and the Tarikere-Yedahalli Tramway for the year 1914-15 read above, in abeyance for the present;

(ii) to debit the cost of establishment employed in the working of the Bangalore-Chikballapur Light Railway, and in the office of the Comptroller, the District Loco Superintendent and the Superintendent of the Line to Capital Account until the line is opened for passenger traffic;

(iii) to debit the cost of establishment employed on the working of the Tarikere-Yedahalli Tramway and in the office of the Superintendent of the Line to Capital Account until the whole line is opened for traffic; and

(iv) to treat the earnings from goods traffic on both the Light Railway and the Tramway as "Receipts on Capital Account" of the respective lines.

2. A supplemental proposition statement of staff chargeable to sub-heads (*d*) Audit and Accounts, (*f*) Loco and (*g*) Traffic should be submitted in due course.

Letter No. 4582—B. & R. 669, dated 17th December 1914, from the Comptroller to the Government of His Highness the Maharaja of Mysore, forwarding a letter dated 1st December 1914, from Messrs. Best & Co., Madras, claiming on behalf of the Mysore Gold Mining Company, Limited, a rebate of Rs. 1,436-6-0 on account of the war risk insurance paid on the transport of the output of gold from the Mysore Mine for July 1914, and soliciting orders as to whether the claim may be allowed.

Order No. 1699—Geol., dated 16th February 1915.

The term *net sale proceeds* for purposes of assessing the royalty due to Government on the output of gold means gross sale proceeds minus expenses incident to the sale and among these expenses charges are a legitimate charge.

2. The war risk insurance represents merely a specially high rate of charge on account of insurance and forms part of the legitimate expenses incidental to the sale of the gold at the time. The rebate claimed by Messrs. Best & Co. on this account is therefore admissible and should be allowed.

9	J 2646-7—Cts 136-14-2 ...	10	The Regtr., Chief Court, and the Comptr., Mysore Govt.	Directs that the Registrar of the Chief Court should be treated as a Sub-Judge, for all purposes, and sanctions, in the light of this order, the salary claimed by Mr. T. Venkoba Rao, at Rs. 500 per month, as Acting Registrar of the Chief Court.
10	J 2618-9—Cts 233-14-2 ...	10	The Govt. Advocate in Mysore and the Dt. Magte., Kolar Dt.	Directs the Government Advocate to prefer an appeal to the Chief Court, against the order of acquittal passed by the Sessions Judge in regard to the first three only of the accused persons in Kolar Sessions Case No. 3 of 1914-15.
11	Pol 775—Cts 222-14-4 ...	10	The First Asst. to the Hon'ble the Resdt. in Mysore	Requests the issue of an extradition warrant to the District Magistrate of Anantapur for the surrender of one Dombar Venkataramana *alias* Chickavenkataramana charged with the offence of theft and escape from lawful custody.
12	J 2683—Cts 264-13-6 ...	13	I.-G. of Prisons in Mysore	States that Ramudu *alias* Venkataramudu, convict No. 1392 of the Bangalore Central Jail, is reported to be now residing at Cheelur near Chintamani, and requests him to communicate with the District Magistrate of Kolar and have him arrested in order that he might undergo the unexpired portion of the sentence passed on him in this State.
13	J 2684—Cts 264-13-6 ...	13	The Dt. Magte., Kolar Dt.	Forwards a copy of the above.
14	J 2692—Cts 243-14-2 ...	13	The Compiler, *Mysore Gazette*	Notifies the appointment of Mr. C. B. Shama Rao, B.A., acting Amildar of Nelamangala, as a Magistrate of the 3rd Class.
15	J 2693 ...	13	The Dt. Magte., Bangalore Dt.	Forwards a copy of the above.
16	J 2695-6—Cts 224-14-2 ...	15	The Regtr., Chief Court, and the Dy. Comr., Chitaldrug Dt.	Authorizes the return of copies of judgments of lower Courts, in Criminal Appeals, to the appellants on their application after the disposal of the appeals.
17	J 2730—Cts 222-14-6 ...	16	The Dt. Magte., Tumkur Dt.	Intimates the issue of an extradition warrant for the surrender of Dombar Venkataramana, to the Amildar Magistrate of the Pavagada Taluk.

18	J 2756-9—Cts 77-14-9 ...	17	The Regtr., Chief Court, the Dy. Comr., Tumkur the Comptr., Mysore Govt. and the Rev. Comr. in Mysore	Sanctions an additional sum of Rs. 63 for the purchase of seals for each of the Village Courts in the Tumkur District, the charge being met out of the savings in the pay of the Deputy Registrar, Chief Court.
19	J 2762—Cts 225-14-2 ...	17	The Dt. Magte., Hassan	States that daily allowance from the 10th to the 13th November 1914 to the late Mr. B. Krishnamachar, Public Prosecutor, Mysore Division, is inadmissible under the circumstances represented.
20	J 2775—Cts 188-14-2 ...	17	The Regtr., Chief Court	Forwards copy of order passed by His Highness the Maharaja of Mysore, on the memorial of Ningegowda and Muddegowda, under sentence of death in the Bangalore Central Jail, commuting the sentence of death, in the case of both the memorialists, to one of transportation for life.
21	J 2776—Cts 155-14-2 ...	17	Do ...	States that the Comptroller reports that Mr. Nagappa has already been authorised by him to draw the increment from the 6th January 1915, the date on which it fell due, that orders of Government are not necessary for allowing increment attached to a place on progressive salary, that such increment is authorised by the Audit office before the close of the month in which it falls due provided that no order for withholding it has been passed in the meanwhile and that Mr. Nagappa's claim to be given the increment from the 10th November 1914, is clearly inadmissible as the new grade was brought into force from the 6th January 1913, and so his application, dated 11th November 1914, was premature.
22	J 2778—Cts 246-14-2 ...	18	The Compiler, *Mysore Gazette*	Notifies the grant of privilege leave for one day on the 2nd January 1915, to Mr. A. Srinivasa Raghavachar, B.A., B.L., Munsiff, Seringapatam.
23	J 2779—Cts 252-14-1 ...	18	Do ...	Notifies the temporary promotion of Mr. D. M. Narasinga Rao, B.A., B.L., from the 3rd to the 2nd Class of District and Sessions Judges, *vice* Mr. Humza Hussain, appointed to act as a Judge of the Chief Court.
24	J 2802-3—Cts 117-14-4 ...	19	The Regtr., Chief Court, and the Comptr., Mysore Govt.	Sanctions charge allowance to Mr. M. Lakshminarasimhaiya, Head Munshi, District and Sessions Court, Mysore, for the period (one month and five days) during which he was in charge of the duties of the sheristadar of that Court.
25	J 2806-7—Cts 119-14-2 ...	19	Do ...	Sanctions the confirmation of Mr. S. A. Vaidesvara Iyer, as Sheristadar, District and Sessions Court, Mysore, with effect from the 21st August 1913.
26	J 2815—Cts 256-14-2 ...	20	The Compiler, *Mysore Gazette*	Notifies the investiture of Mr. B. S. Ranoji Rao, B.A., City Magistrate, Bangalore, with— Power to order released convicts to notify residence, Section 565, Criminal Procedure Code.
27	J 2816—Cts 240-14-1 ...	20	The Dy. Comr., Mysore	Records Subject No. 404 of the Representative Assembly of 1913, regarding the amendment of Rule 3 of Order XXXII of the Code of Civil Procedure, so as to leave to the discretion of the Court, the issue of notices to minors before orders for the appointment of guardians to them, are passed, with the observation that in Government Proceedings No. J. 1123-31—Legis. 32-12-5, dated 29th September 1913, the rule in question has been suitably modified.

Serial No.	Proceedings			Subject and Order

28	J 2828—Cts 244-14-1 ...	20	The Dy. Comr., Kadur	States that any definition of the words 'Agricultural Produce,' in the Civil Procedure Code, is unnecessary.
29	J 2823-4—Cts 136-14-4 ...	20	The Registr., Chief Court and the Dt. Magte., Bangalore	With reference to the case in which Mr. Chatterton claimed an apology from the Chairman of the Bench of Magistrates, Bangalore, states that:— (1) Government cannot understand how Mr. Chatterton can complain if the Court refused to receive or consider a letter addressed to them concerning the merits of a case under trial; (2) that the use of discourteous language is denied by the Chairman and there is no reason to believe that such language was employed; (3) that on the other hand, the Court has good reason to take exception to the attitude assumed by Mr. Chatterton with reference to the case; (4) and that Mr. Chatterton was certainly not right in asking for an apology from the Magistrates who exercised their functions with a due sense of responsibility; and observes that the District Magistrate should have disposed of the correspondence himself and that reference to Government in the matter was quite unnecessary.
30	J 2829—Cts 141-14-3 ...	20	H. Krishnamurtyachar, Agent, Sripadaraja Matt, Mulbagal	States that there are not sufficient grounds to reconsider the order already passed, declining exemption from personal appearance in the Civil Courts of the State, to the swami of the said Matt.
31	J 2864—Cts 231-14-2 ...	23	The Dt. Magte., Shimoga	States that Government do not see sufficient reason to move the Chief Court, to set aside, in revision, the orders passed by the Sessions Judge, Shimoga, in Miscellaneous Cases Nos. 21 and 22 of 1914-15, on his file releasing convicted persons on bail.
32	J 2867—Cts 241-14-1 ...	23	The Dy. Comr., Mysore	Records Subject No. 446 of the Representative Assembly of 1913, regarding the issue of notices to complainants in Criminal appeals, and states that, a similiar case having been disposed of by Government in their Order No. J. 897-8—Cts. 42-13-3, dated 12th September 1913, no further orders are considered necessary.

33	J 2905—Cts 121-14-3 ...	26	The Regtr., Chief Court	Reviews the report on the Administration of Civil Justice in Mysore, during the year 1913-14.
34	J 2927--Cts 255-14-1 ...	26	The Dy. Comr., Mysore Dt.	Records Subject No. 427 of the Representative Assembly of 1913, regarding the grant of copies of Judge's order sheets, with the remark that, under the revised rules, there are no restrictions, against the grant of the copies referred to.
35	J 2937—Cts 299-13-6 ...	27	The Comptr., Mysore Govt.	States that Government do not consider additional establishment necessary, for checking and destroying stamp-slips, attached to the bills of copyists and examiners.
36	J 2938—Cts 238-14-6 ...	27	The Dt. Magte., Chitaldrug Dt.	Intimates the issue of an extradition warrant to the District Magistrate of Poona, for the surrender of Dodda Yellaga *bin* Konda, to the Superintendent, Central Jail, Bangalore.
37	J 2939—Cts 238-14-6 ...	27	The Supdt., Bangalore Central Jail	Forwards a copy of the above.
38	J 2940—Cts 171-14-2 ..	27	The Regtr., Chief Court	Directs that the sentence of transportation for life, passed on one Channi, be commuted to one of rigorous imprisonment for five years.
